TRI STATE COLLEGE

Top: The gateway to the campus.

Left: The end of an era.

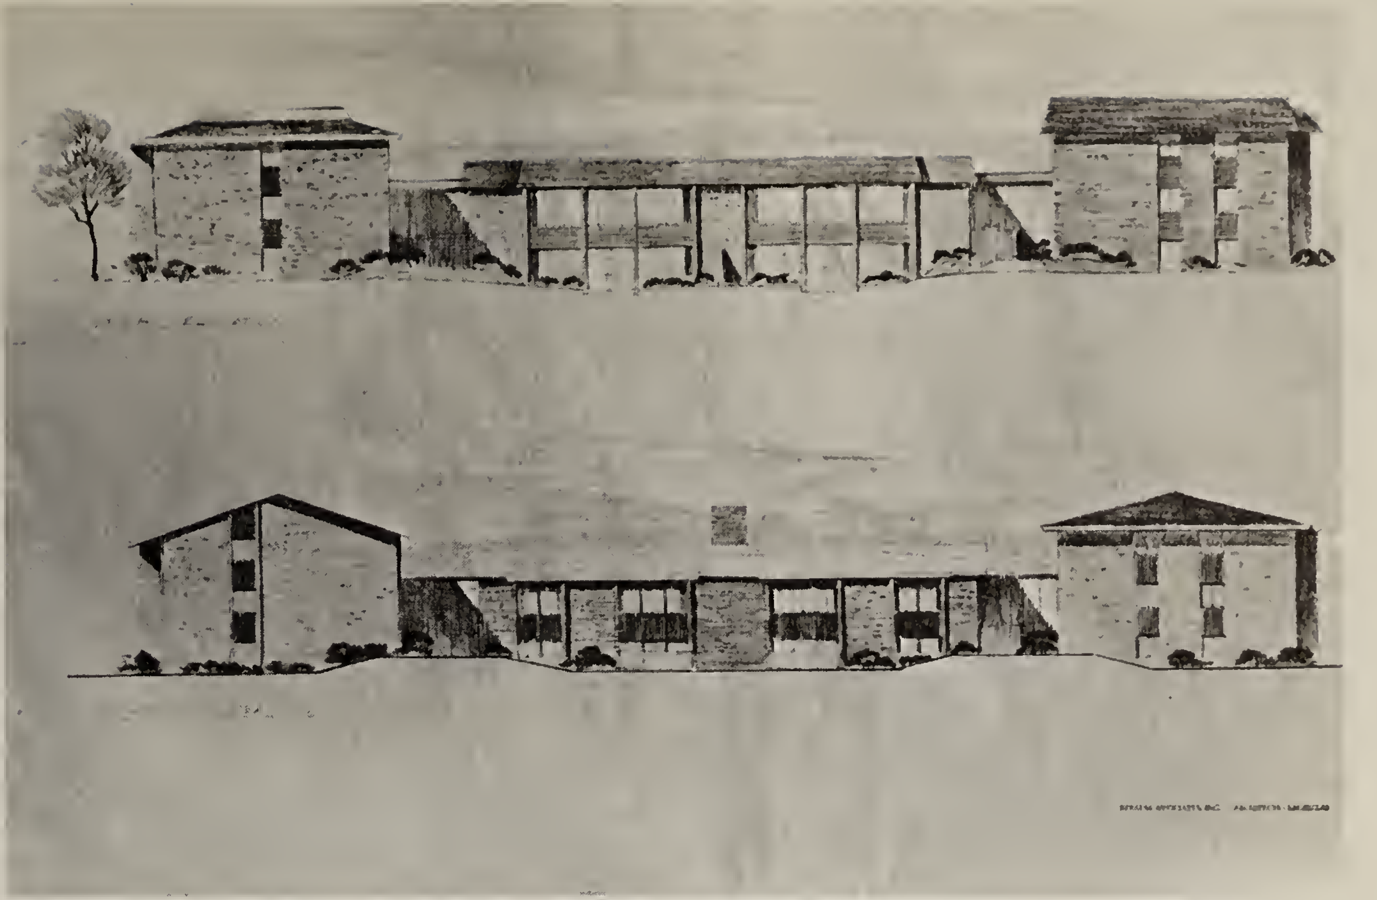
Bottom: Stewart Hall offered modern accommodations.

The Campus - Now and Tomorrow

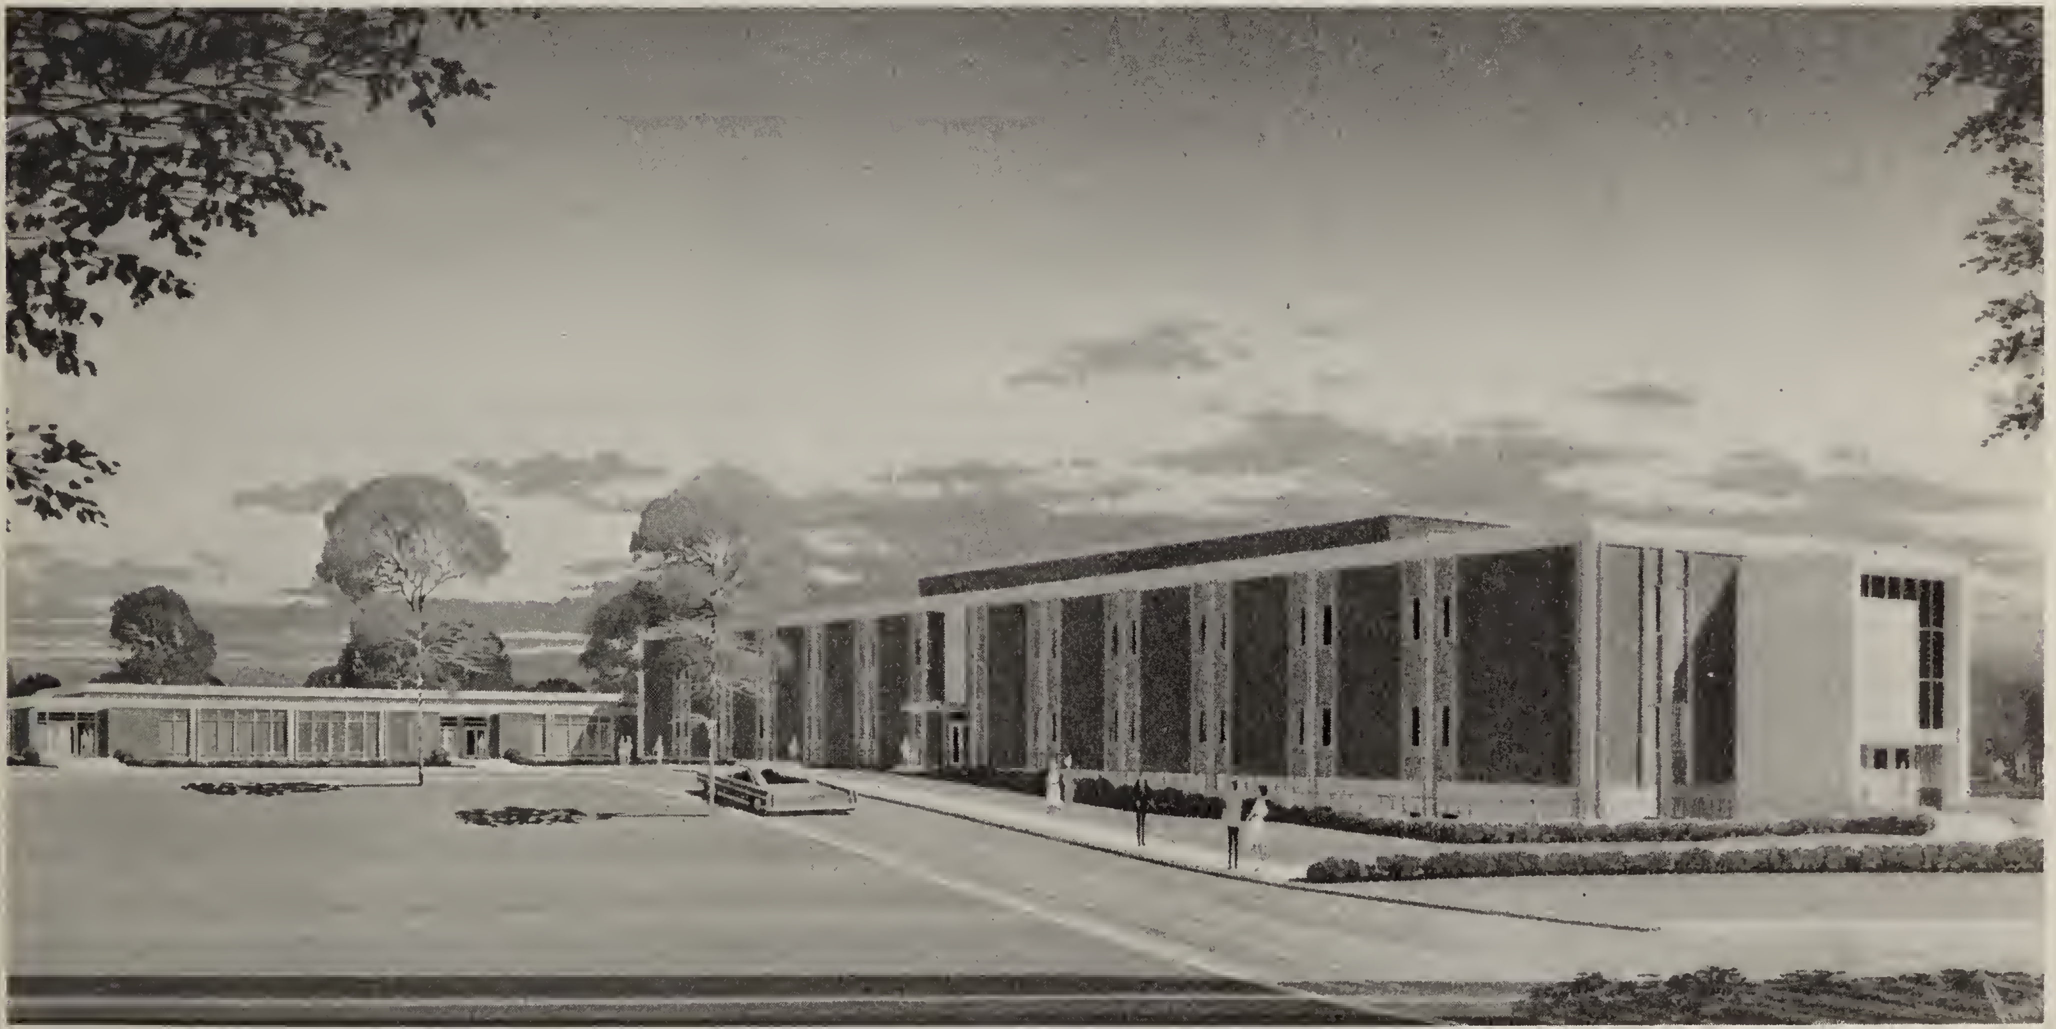
Those who make up Tri-State College, both faculty and student body, could look back with pride and satisfaction at Tri-State's growth. The college's progress was similar to our nation's space program. The Board of Directors worked hard and diligently toward their goal of making Tri-State College a growing success.

In the wake of the college's growth many things were changed. Buildings that were no longer needed were condemned and razed. In their places new buildings were built or started, and others were remodeled.

A new library was built in 1962 thus bringing a new look to the campus. After that a new dormitory with its own cafeteria was added. Also, the ultramodern new science building was completed. Other buildings planned were a student union, a new business building, and a field house.



Proposed small housing complex.



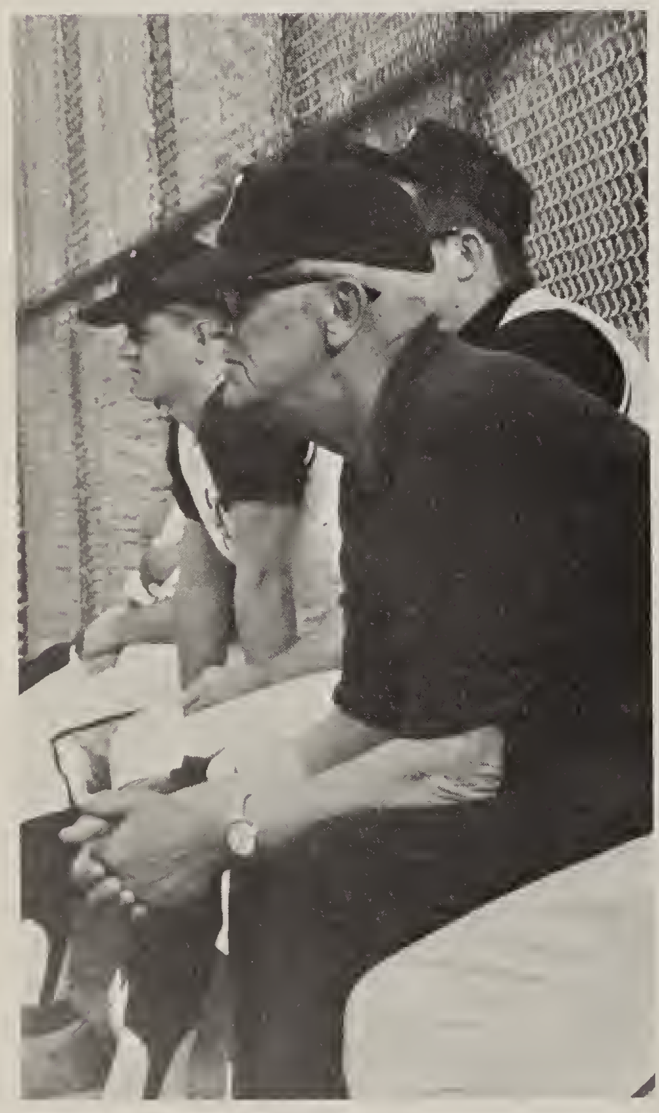
The John G. Best Hall of Science was opened for full academic use in September.

The Spirit

"Doc" Mummert retired this year from responsibilities as Director of Athletics after 17 years at Tri-State.

Many young men have passed under Doc's tutelage during those years, and the athletic program has grown and matured under his direction.

Doc's many friends wished him well and many healthful years.



B. J. "Doc" Mummert, Director of Athletics

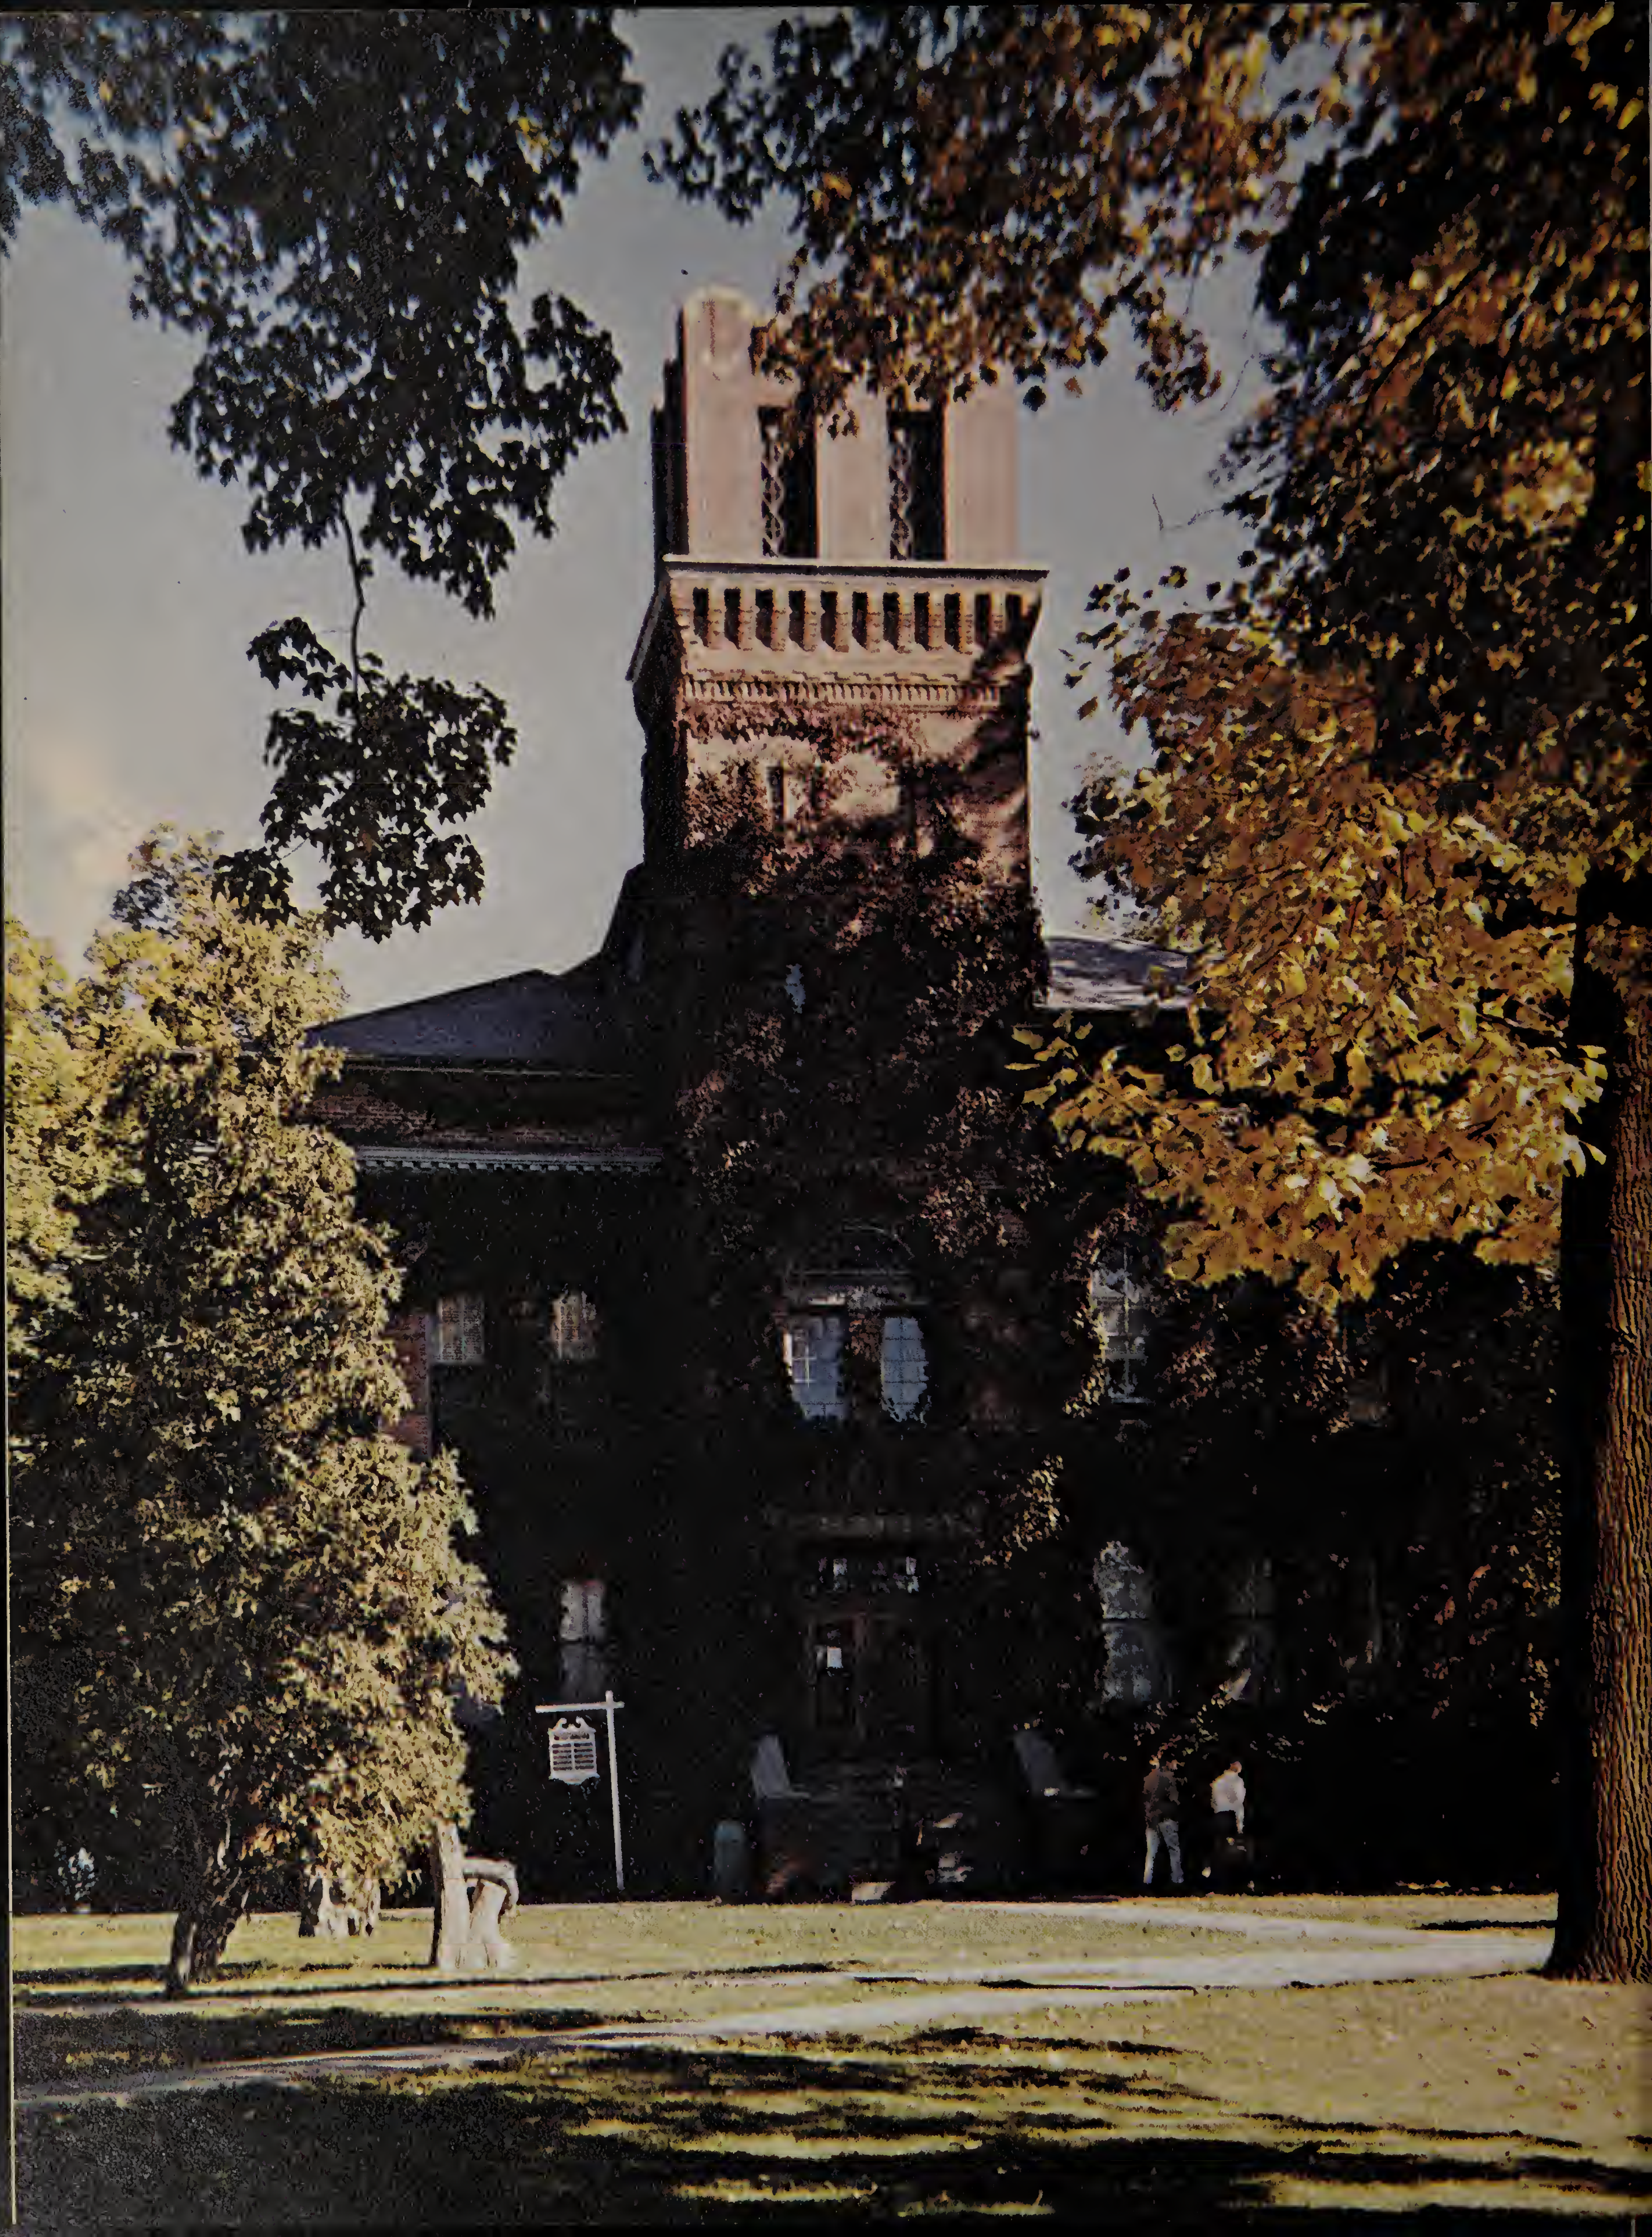
# of Dedication

Minard F. Rose, Professor Emeritus

A scholar and a gentleman . . . an old cliche, but no more appropriate words could describe Professor Minard F. Rose.

Professor Rose retired after 30 years on the faculty at Tri-State, an enviable mark of dedication and loyalty. The Board of Trustees honored him with the rank of Professor Emeritus.

The campus will be diminished without his tonsorial elegance, his urbane with, his scholarship, and his concern for students.



A New Chapter Was Opened in the Story of Tri-State College

The year 1967 marks the first anniversary of accreditation which is one of the several recent milestones for the college.

Accreditation means to the student that he stands shoulder to shoulder with his peers in higher education across America.

For the college accreditation means the opening of new doorways through which comes support from foundations and the federal government.

Finally for faculty accreditation means new vistas in scholarly pursuits and salary levels.

The opening of the John G. Best Hall of Science adds to the campus not only a magnificent building, but brings to fruition curricular enrichment long needed.

Through the generosity of Mr. Best, member of the Board of Trustees, his significant $500,000 gift, and the efforts of many others, the science building is a reality.

Top: Dr. Willig announced the acceptance for accreditation.

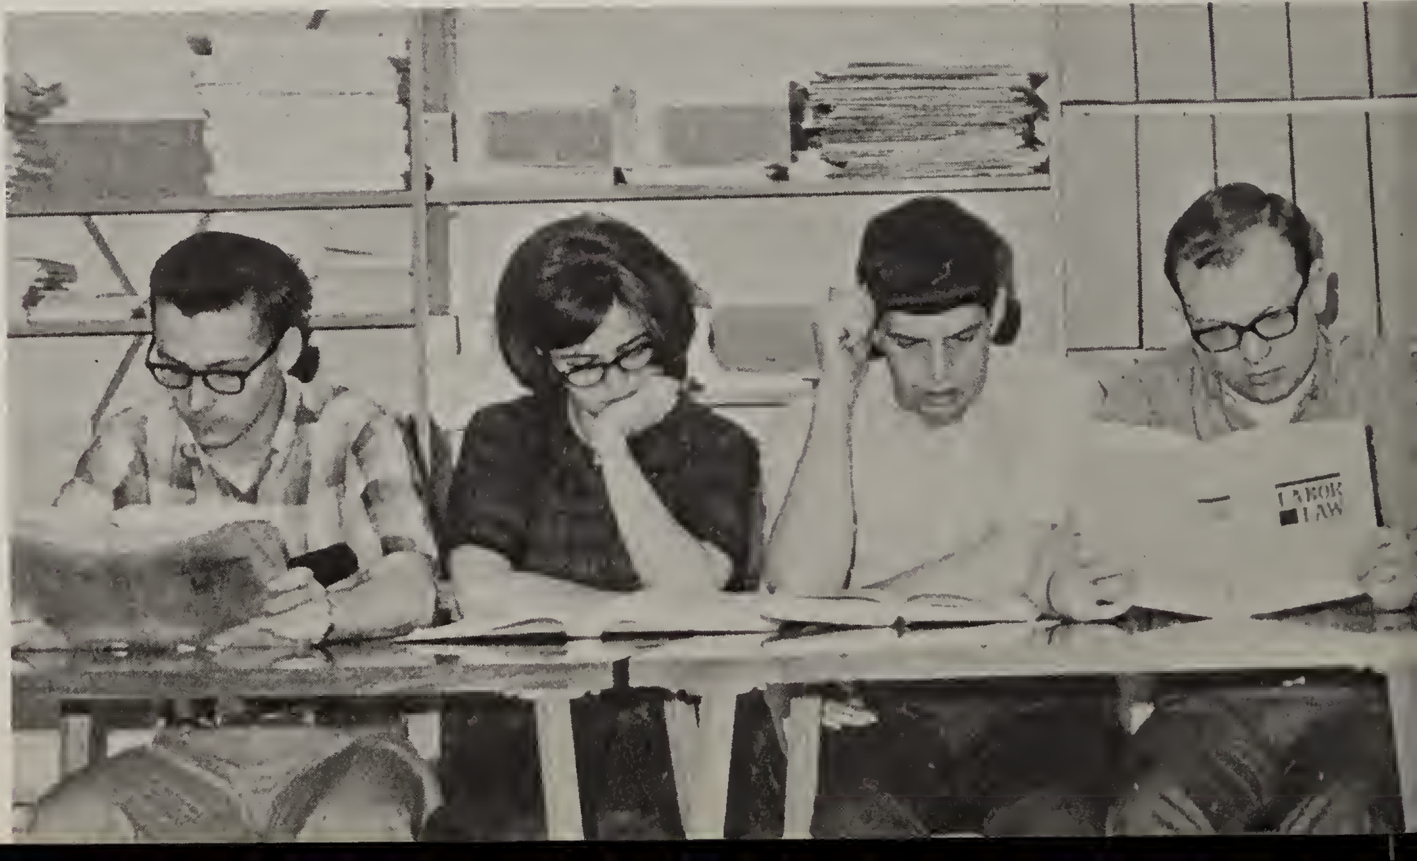
Right: Graduates fully realize the advantages of accreditation.

The Library Offers Multi-purpose Facilities

The Perry T. Ford Library staff under the direction of Dr. Joseph Szerenyi assisted the student in finding his needed information from the 50,000 volumes of reading material located there.

Along with providing excellent resource material, numerous functions are also conducted in the meeting rooms. In addition, a microfilm machine is available for student use which offers a storehouse of newspaper and magazine material.

The Library offers multi-purpose facilities.



Contemporary design and complete air conditioning appeal to students.

Final exam time always taxes the facilities to the utmost.

Tri-State College Board of Trustees

The Board of Trustees through their varied ideas, backgrounds and experiences provide a professional and progressive framework within which the college can operate.

Trustees with interest are indispensable. Tri-State College is fortunate to have men of such caliber.

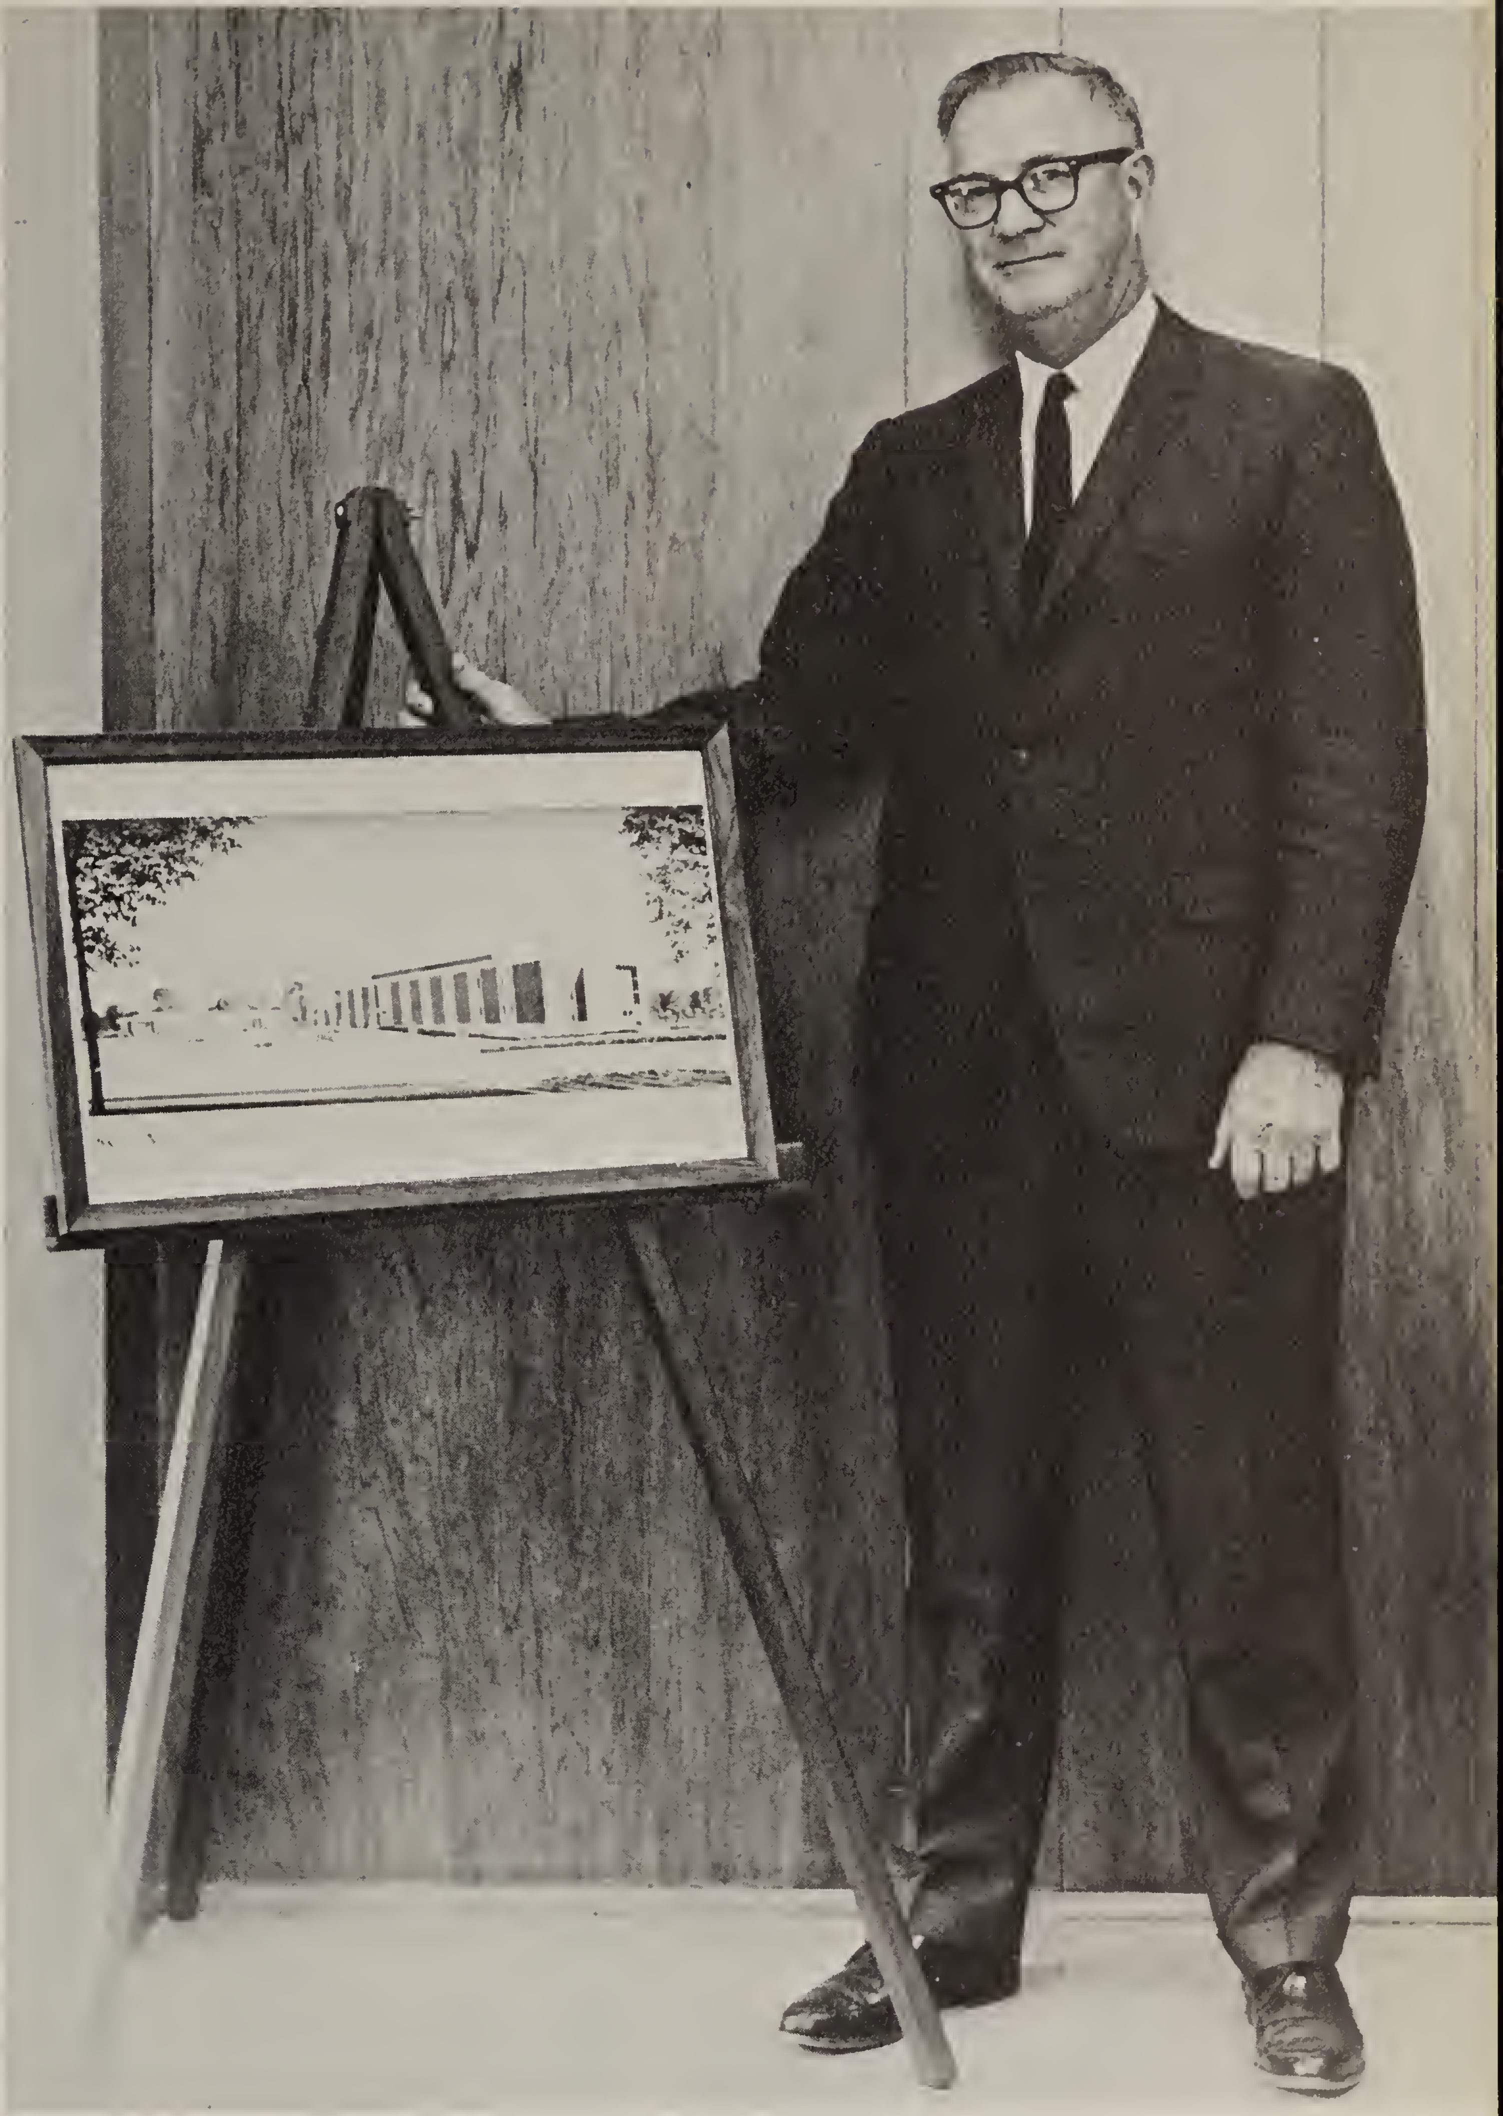
President's Message

We stand today between that which was yesterday and what will be tomorrow. Today we are dependent upon knowledge gathered from yesterday's past to build for tomorrow's needs.

Amidst this changing panorama men must lay blueprints in person and things so well conceived that future buffeting by fate will not make these plans obsolete almost as soon as they are conceived. Today's plans for tomorrow are always a calculated risk, and today's education must be built on a foundation that will have in its structure a built-in flexibility that will meet the changing time.

Tri-State College has attempted to meet tomorrow's educational needs today, and we hope our graduates have learned wisely and well in this exposure. We join in wishing you continued success in all of your future endeavors.

Richard M. Bateman
President



Administrative Officers

In 1884 Tri-State College was founded in Angola, Indiana as a normal school for teachers. Over the years it has undergone a complete transition and is now an engineering and business administration college with an enrollment of nearly 2,000.

1967 was an especially challenging and rewarding year for the administrative staff of Tri-State College. Its normal duties included regulating housing, counseling students both in academic and professional areas, handling admissions, compiling and maintaining academic records, computing various necessary statistics, promoting good public relations and advising numerous student organizations. Also, funds were secured and plans were completed for extensive building projects. Some of these structures were completed and put into use this year.

Due to their efforts the fine academic reputation of Tri-State College was not only maintained but greatly enhanced, making the road even smoother for graduating students.

College aid to students did not end with graduation. An excellent placement staff served graduates in numerous invaluable ways.

Seniors

Business Administration

DR. PAUL T. McELHINEY, Dean, School of Business; B.S., M.S., University of Michigan; Ph.D., University of California.

Faculty

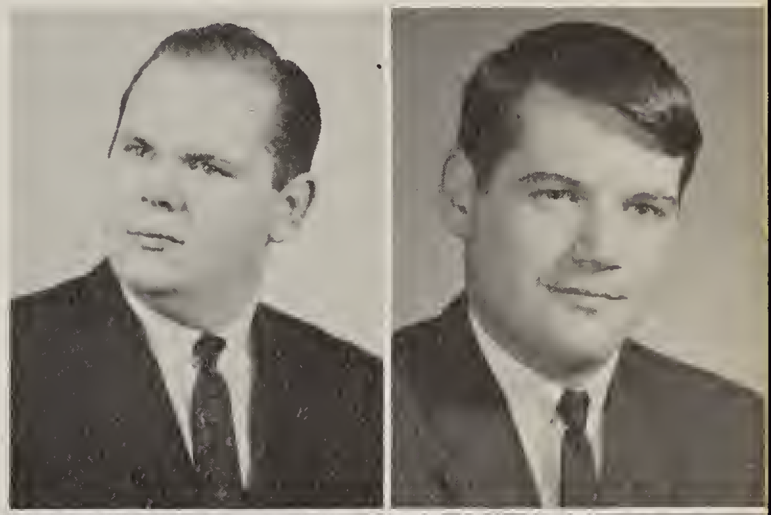
HAROLD L. HOOLIHAN, A.B., Albion College; A.M., University of Michigan.
WAYNE A. CHAMPION, B.S., M.A., Bowling Green State University; Ohio State University.

ROBERT I. COOK, B.S., M.A., Michigan State.
LEWIS N. MOORE, B.S., University of Arkansas; M.A., University of Chicago; Indiana University; St. Francis College.

FREDERICK J. HAHN, B.S., University of Colorado; J. D., University of Wisconsin.
CHARLES L. HILTON, B.S., M.S., University of N. Carolina.

LEONARD E. SHEFFIELD, B.S., M.B.A., Indiana University.
DONALD L. TRENNEPOHL, B.S., J.D., Indiana University.

Transportation Seniors



NICHOLAS CRNEK, JR., Allen Park, Michigan; Motor Transport Society; N.D.T.A., Sigma Epsilon Society; Sports Car Club.
KENT DENTON, Hartford City, Indiana.

THOMAS GABLER, Chambersburg, Pa.
CORNELIUS J. LANG, Atlantic City, N.J.
ROBERT C. LEAVENS, Frankfort, Mich.; Motor Transport Society; N.D.T.A.

DOUGLAS J. MARSHALL, Flint, Mich.; Motor Transport Society; N.D.T.A.; Modulus; Tau Kappa Epsilon; Student Council; Delta Nu Alpha.
RON PATTON, Kendallville, Indiana.
THEODORE WOOD, Armonk, N.Y.

Accounting Seniors

The School of Business Administration continued to provide sound academic training for students interested in future careers in business management. A new and broader program was offered enabling the students more flexibility in planning their own programs to fit their personal objectives.

The Departments of General Business Administration, Motor Transportation Administration and Accounting, all combined to offer a select, yet diversified combination of courses. The students could major in any of these departments and select several electives from the other business departments as well as from the rest of the school.

Centered in the Commerce Building, the School of Business Administration was an important part of the dynamic business scene. Its facilities provided the industrial world with men that were needed today.

Aeronautical Engineering

The Aeronautical Engineering Department is keeping pace with the rapidly expanding field of space technology. The acquisition of new equipment, the most recent of which is a supersonic wind tunnel, and the expansion of interests into new fields of endeavors, make the Aero Dept. one of the most progressive on campus.

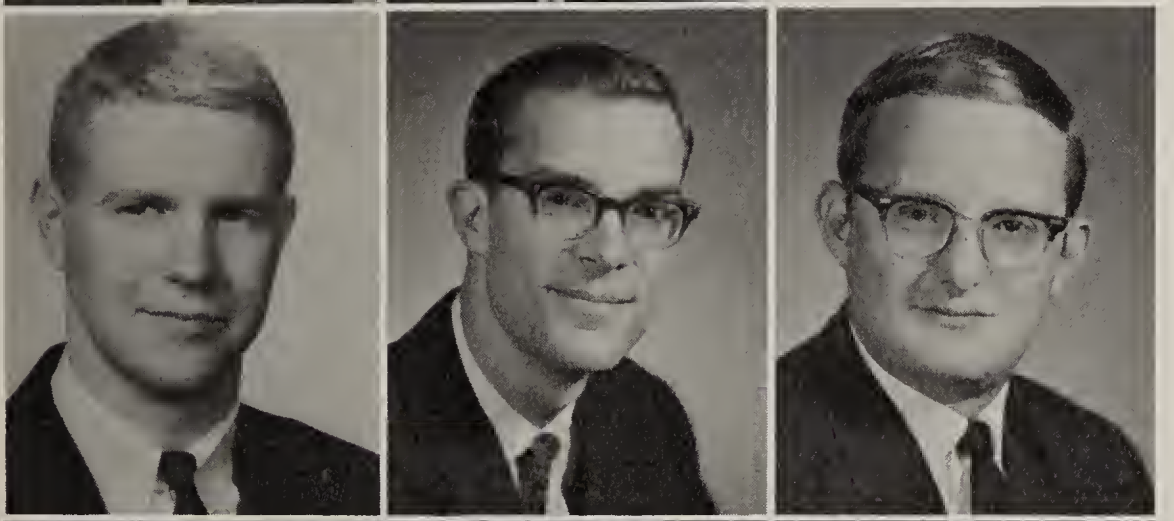
Faculty

WILLIAM A. BROCK, B.S., Tri-State College.

QUINTIN J. HAWTHORNE, Chairman; B.S., Tri-State College; M. S., Ph.D., University of Notre Dame; P. E., Indiana.

Aero Seniors

JEFFRY EGGLETON, Dexter, Michigan.
MARTIN F. EIGENMANN, LaPorte, Ind.; A.I.A.A.; Tau Sigma Eta.



RICHARD C. FOX, Elkhart, Ind.; A.I.A.A.
THEODORE C. KAYSER, Middletown, Conn.; Inter-Varsity Christian Fellowship; Flying Thunderbirds; A.I.A.A.; Resident Assistant.
CHARLES H. LANTZ, Lima, Ohio; A.I.A.A.; Sports Car Club.

WILLIAM B. MORRISSEY, Gary, Ind. A.I.A.A.; S.A.E.; M.E.S.
JAMES NORD, Ligonier, Ind.
PAUL PARE, Lewiston, Maine.

NEIL F. SIGLER, Merrefield, W. Va.; A.I.A.A.
WILSON TAYLOR, South Bend, Ind.
MICHAEL L. WALTERS, Livenia, Mich.; Kappa Sigma; Student Senate; A.I.A.A.; Senior Class Treasurer; Booster Club; Modulus; Tri-Angle; M.E.S.

Faculty

DANIEL L. FULLER, B.S., Ball State University; M. S., Purdue University.
BYRON GRIFFITHS, B.S., Tri-State College.
FRANCIS J. HERBER, B.S.; St. Joseph College; B.S., Ch. E., Indiana Institute of Technology; M. A., Ball State University.

DR. KENNETH H. SLAGLE, Chairman; B.S., Ph.D., John Hopkins University; University of Pittsburg; Lafayette College.

DR. BURTIS E. HORRALL, B.S.A., Purdue University; M. S., Kansas University; Ph.D., University of Wisconsin. University of Wisconsin.
MICHAEL D. MURPHY, B.S., University of Wisconsin; M.A., University of S. Dakota.

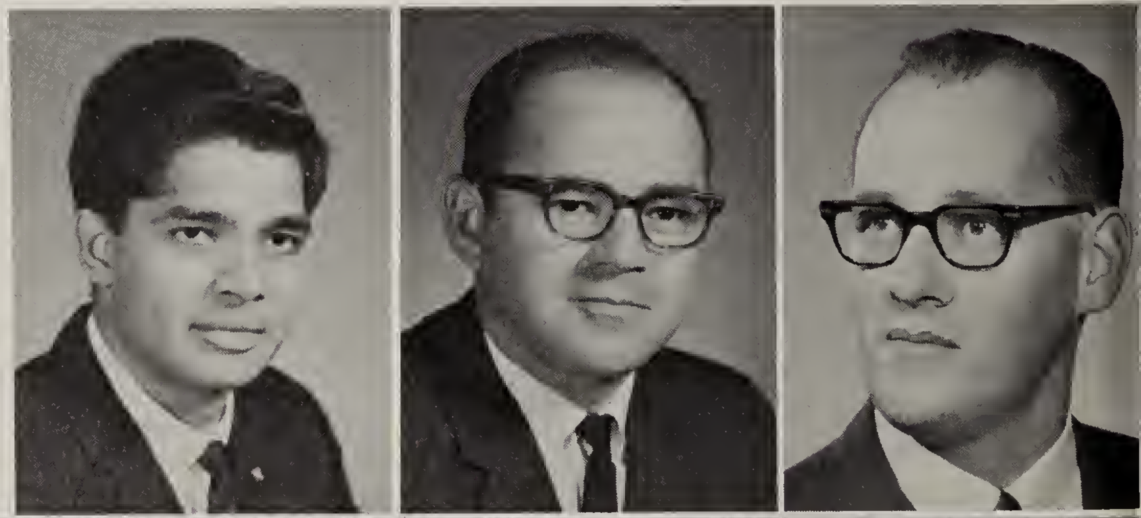
Chemical Engineering

RAYMOND L. PORTER, B.S., Tri-State College; M.S., Montana State College.
PYRL L. RHINESMITH, B.S., Tri-State College.

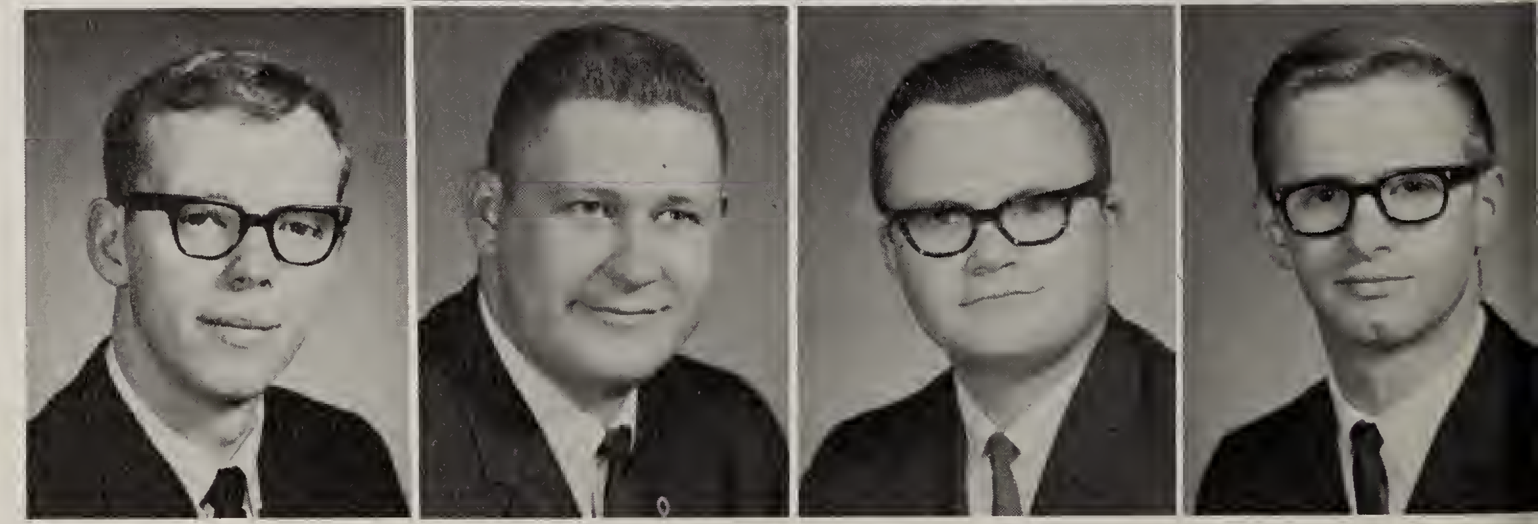
The first department to fully realize the benefits of expansion is the Chemical Engineering Department. The John G. Best Hall of Science will be the department's new home, after being confined to outdated facilities and equipment. Extensive laboratories and classrooms are provided, as well as two large lecture theaters. New courses such as biology have been added to broaden the curriculum.

Chem Seniors

JAYANT C. DESAI, Surat, Gujarat, India; American Chemical Society.
HAROLD P. DUCEY, St. Petersburg, Fla.; American Chemical Society.
JACK L. NICKELS, Rochester, Ind.; American Chemical Society; Student Director.



DOUGLAS C. PECK, Sturgis, Mich.; Tau Kappa Epsilon; Chemical Engineering Society; Methodist Student Movement; Inter-Varsity Christian Fellowship; Student Senate; Booster Club; Sr. Class Pledge Committee.
ROBERT E. SCHILLING, Dover, Ohio. Chemical Society.
JAMES STITT, Peru, Ind.
CLYDE E. TAYLOR, Pioneer, Ohio; American Chemical Society.



Civil Engineering

Increased requirements in civil engineering made it a diversified field. To give the students the fundamental principles underlying the divisions of civil engineering and a certain degree of skill in applying them, Dr. George Hauck and his staff taught a diversity of courses. To keep abreast of the problem of water and air pollution and water supply, a course in sanitary engineering covered water supply and treatment and sewage systems.

Work in urban planning and transportation engineering was taught to meet the demands of urban renewal programs and the complexity of water, land and air travel problems with an eye on space travel. Soil mechanics and its applications, the design of foundations for structures, and the analysis of earthwork, and the investigation of subgrades for highways, railroads and airports was thoroughly covered.

Faculty

DR. GEORGE F. HAUCK, Chairman; B.S., Architectural Engineering; M.A., Architectural Engineering, Oklahoma State University; Ph.D. Narthwestern University; P.E., Oklahama.

ARTHUR J. BUSH, B.S., M.S., University of Missauri; P.E., Missauri.
JOHANNES WOLDE-MARIAM, B.S., Laughboraugh College; M.S., Oklahama State University.

PAUL J. YOSICK, New Philadelphia, Ohio; Phi Kappa Theta; A.R.B.A.; I.F.C.

Institute of Drafting and Design

Drafting and Design at Tri-State is devoted to both training draftsmen and teaching engineers to decipher drawings. The department stresses that engineers must be able to use the drawings of the industrial world and understanding the draftsman's language. It also offers courses that assure the prospective draftsman a complete education for his field of work.

Use of drawing equipment and standard layout is stressed first. Then, after the student becomes familiar with his tools he is taught the principles of orthographic projection, auxiliary views, isometric and cabinet pictorial drawings, and dimensioning and lettering. Those who enroll in Drafting and Design are given a more complete training in all the techniques enjoyed in the drawing world.

Faculty

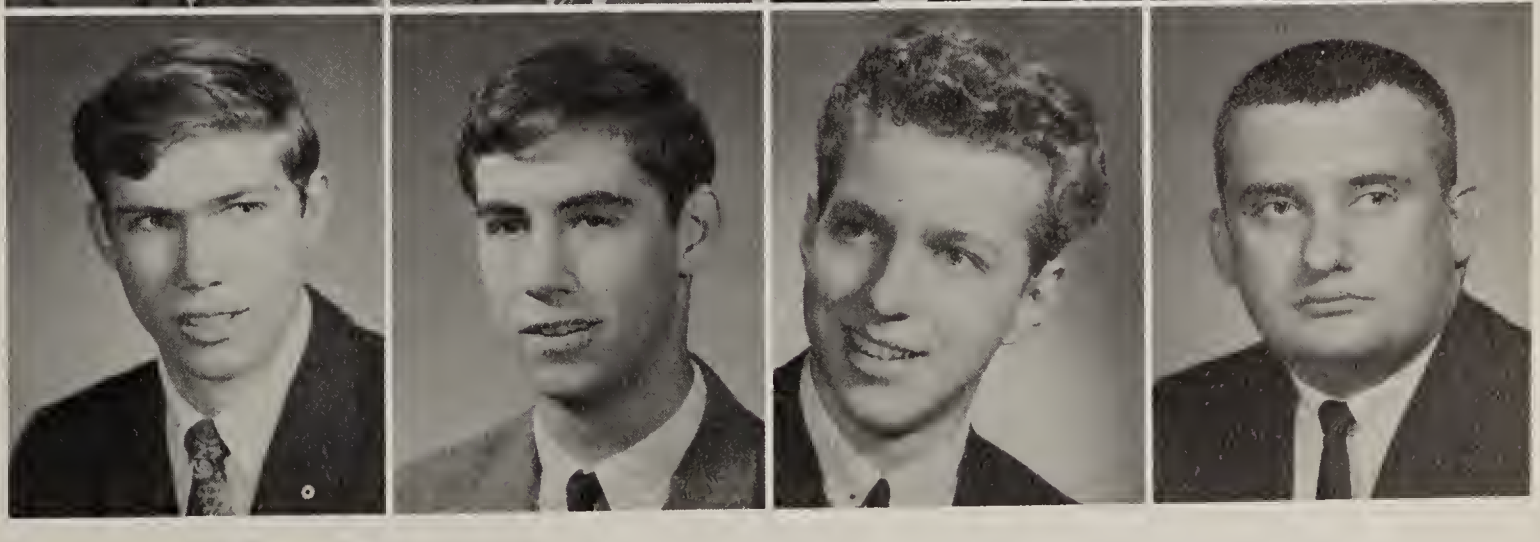
TED DOLAN, B.S., M.S., Illinois Institute of Technology.
LEO F. KUHN, B.S., M.S., Western Michigan University.

JOHN C. LARKIN, B.S., Central Conn. State University; M.A., Ball State University.
STANLEY S. RADFORD, B.S., Michigan State University; M.A., University of Michigan.

HARVEY W. WAFFLE, Chairman; B. S., Stout State College; Ph. M., University of Wisconsin; M.A., San Jose State College.

"D & D" Seniors

JERRY BINDER, Fremont, Ohio.
JAMES MILLER, Endicott, N.Y.
DAVID A. RATH, Defiance, Ohio; A.I.D.D.
JIM RIGGS, Edon, Ohio.



MAX SPIKER, Middletown, Ind.

DON WILSON, Angola, Ind.
LARRY L. WORTINGER, Goshen, Ind.; Sports Car Club; I.E.E.E.; College Track Team.

English and Humanities

There are two important objectives the department strives to meet. First, concern for the individual student and his progress in communication skills. Consequently, tests are administered to him during orientation, which evaluates his needs, and provides results used to assign him to courses which are of the greatest value to the student.

A second important objective is to provide an opportunity for the student to discover and develop personal interests which he finds enjoyable in future years. To provide this, courses in classical and modern literature, foreign language, and music appreciation are offered.

To acquaint him with the mechanics of advance writing skills, a course called advanced composition was introduced. Compositions varied from creative writing to business or technical reporting, depending upon the objectives of the individual.

Humanities I and II were also added to the curriculum. The study of selected ideas which have significance for 20th Century Americans as those ideas that were expressed in literature and the arts of the 19th and 20th centuries.

Dr. John T. Douty serves as Chairman of the English and Humanities Department.

JOHN T. DOUTY, Chairman; B.A., Western Maryland Callege; Western Reserve University; M.A., Ph. D., University af Denver; Jahn Hapkins University; University af Edinburg.

Faculty

ELIZABETH ORLOSKY, B. A., DePauw University; M. A., Ball State University.
ANN M. SLANINA, B.A., St. Francis College; St. Mary's Callege; M. A., University af Daytan.

ARTHUR A. HOCKEY, Acting Chairman, B. S., Iowa State Teachers College; M. S., State University of Iowa.

Mathematics and Engineering Mechanics

Tri-State's Math Department, which was the largest of the service departments, aided in services to more than 1500 students each day.

The Math Department, headed by Arthur Hockey, gives students the complete courses in mathematics that are needed for every aspect of Business and Engineering at Tri-State. Introduction to Digital Computer Programming, a new two-year course, was offered by the Department during the 1965-1966 school year.

The Math Department held one seminar each quarter to keep the instructors better informed and oriented.

Faculty

DOUGLAS A. BARTON, B.S., Tri-State Callege. P.E., Indiana.
KEITH W. DAILEY, Technician.

DR. QUINTIN J. HAWTHORNE, Chairman; B.S., Tri-State College; M.S., Ph.D., University of Natre Dame.

BADARINATH S. DIXIT, B.E., University af Mysaal; B.S., Carnegie Institute af Technalagy; M.S., Ph.D., West Virginia University.
WALTER W. HOLCOMB, B.S., Tri-State Callege; M.S., Ohio University; P.E., Indiana.

JOHN C. HUMPHRIES, Assistant Chairman; B.S., Tri-State Callege; University af Minnesota; Michigan State University; P.E., Indiana.
RAMSAY R. JACKSON, B.S., Tri-State Callege.

The major in Mechanical Engineering is intended to give the student a thorough training in fundamental principles. The courses are arranged and graded so as to enable the student to become thoroughly conversant with the principles of contemporary engineering practice, and by persistent association of abstract analysis with practical problems to prepare him for a successful professional career.

There was hardly any field of industry in which mechanical engineering problems were not met. The problems of industry had their origin in the design and manufacturing of equipment as well as the choice of operation of equipment.

Mechanical engineering implies the use of mechanical systems of mechanisms; thus, courses in mechanisms, strength of material, metallurgy dynamics of machinery and mechanics are given.

In addition there is time to study a sequence of courses in the humanities area and to give more communication studies, written and spoken. These are all important, for engineers' work has the creation of things for humanity. His work is an art and a science, and he has to communicate fluently. He has to know the past in order to better serve in the future.

Physics Department

Physics is that branch of science which attempts to explain the phenomena of nature, to answer the questions of "why" and "how" of the things that we observe daily. Many laws of nature are brought to light by this effort.

In presenting the classical laws of physics, the modern concept is not overlooked. Atomic structure, the Quantum theory of energy radiation and absorption, and other new ideas concerning matter and energy are studies.

In the laboratory the student is able to verify the laws and principles that were discussed in recitation. This practice acquaints the student with laboratory methods and measurements.

Faculty

ROBERT H. CUNNINGHAM, B.S., Texas Christian University; M.S., University of Utah; University of Colorado.

PAUL F. EBLE, B.S., University of Notre Dame; Northwestern University; Massachusetts Institute of Technology; M.A., Ball State University.

MARK PETERMAN, B.S., M.S., Butler University.

CHESTER J. PRATT, B.S., Western Michigan University; M.S., University of Michigan; Michigan State University; Oak Ridge Institute of Nuclear Studies.

JOHN B. TRESSLER, Acting Chairman; B.S.; Tri-State College; M.S., Michigan State University; Oak Ridge Institute of Nuclear Studies.

DR. JACK J. NORTRUP, Chairman; B.A., Illinois College; M.A., Ph.D., University of Illinois.

Social Studies Department

The social studies department was organized in the fall term of 1965, with Dr. Jack J. Nortrup as its department head. The social studies department serves both the school of business administration and the school of engineering.

The courses offered by the department are designed to broaden the knowledge obtained by a Tri-State student.

The subjects offered by the department included History I and II, World Civilization, Economics I and II, Applied Psychology, General Psychology, North American Geography, World Geography, and Political Science, Sociology and Comparative Government. Plans for the future include enlarging the staff and offering additional courses.

Faculty

THERON G. LANSFORD, B.A., M.A., University of Texas.

DELIA REDMAN, B.A., Ohio State University; Case Institute; Emory University.

JOHN E. MORIN, B.S., Indiana State University; Indiana University; M.S., Indiana State University.

CHING F. WANG, B.A., National Southwest University; M.A., Bradley University, New York University.

LEON D. VANDE CREEK, A.B., Calvin College; M.A., Bowling Green State University.

Honoraries

Bill Linke earned the Richard M. Bateman Outstanding Journalist Award.

First Row: Ernest Walter, Jr., Ernest Shepard, Walt Johnson, Dean Harold Hollihan. Second Row: Donald Moore, Robert E. Wenz, Ken Manby, Chet Longenecker.

Alpha Beta Alpha

Alpha Beta Alpha, the honorary business society, was founded in September, 1938, to recognize outstanding scholastic achievement of students in the School of Business Administration. A student is required to maintain an average grade of B or better for the six quarters immediately preceding his election to membership. The high ideals set by Alpha Beta Alpha serve as a goal for all students in the School of Business Administration.

Alpha Phi Gamma Recognizes Journalists

Alpha Phi Gamma, honorary journalism fraternity, is dedicated to recognition of individual ability and achievement in journalistic pursuits; service to and promotion of the college welfare through journalism; establishment of cordial relationships between students and members of the profession; and the unity of congenial students interested in journalism.

At TSC Gamma Phi Chapter strives to recognize those students who have contributed to the student publications program, and promote a positive understanding of endeavors throughout the campus community.

Gamma Phi Chapter sponsored the annual publications staff dinner this year which was highlighted by the presentation of the award for the outstanding journalist. President Bateman made the presentation to William Linke, Editor of the **Triangle.**

Who's Who Among Students in American Universities and Colleges

First Row: Keith Knowles, Alex Sorton, David Parsels, Dudley Edgemon, Dave Schuster, James Nord.
Second Row: Ronald Richter, David Hauch, Kester King, Roderick Day, Gordon Deacon.

Eleven Tri-State College students were selected for listing in the 1966-1967 edition of "Who's Who Among Students In American Colleges and Universities." The students honored were selected from the Junior and Senior classes, and were nominated by a faculty committee representing the various academic departments and headed by Dr. William L. Scott, Dean of Students, as chairman. Excellence and sincerity in scholarship, participation and leadership in academic and extra-curricular activities, citizenship on campus and in the community, service to the school, as well as promise of future usefulness to business and society are included in the criteria for selection.

First Row: Robert Raczyk, Robert Kennedy, Don Jenner, Robert Hemp, Ken Rosenberg, Jim Howard, John Sedlacek, Bill Linke. Second Row: Dale Groh, George Sich, Charles Moore, Carl Fox, Max Klaus, Kingsley Hunger, Dave Brandanger, Dave Grubb.

Student Senate

John Sedlacek, Secretary-Treasurer; Don Sledzinski, Vice President; Jim Biracree, President.

The Student Senate of Tri-State College an organization representing the students from all societies and organizations on campus.

One of the primary functions of the council is to promote the ever increasing activities at Tri-State. A few of the senate activities include the orientation of the incoming freshmen, the annual canoe race, the snow sculpture contest, which is included in the Winter Carnival, and all the college dances which take place throughout the year.

First Row: Rom Russell, Mick Walters, Thayer Bonecutter, Surendra K. Simha, James L. Kiser, Don Locke. Second Row: Scott Erbe, Jerry Currinello, Kathy Juerling, Ken Knipp, Ron Suter.

First Row: Keith Knowles, David Parsels, Scott Erbe, George Sich, Doug Marshall, Gordon Deacon, Ernest Shepard. Second Row: Doaz Eidelberg, James Kiles, Kester King, Jack D. Harreld, Thomas Rowe.

Student Directors Assist Students

Handling most of the campus activities for the administration and students fell on the shoulders of the student directors. This honorary organization, founded to act as a service to the College, is comprised of students from many campus organizations. Selection of members is based on leadership, scholarship, dependability, co-operation, and desire to promote the welfare of the College.

The majority of students attended the many activities on campus giving little thought to how efficiently these activities were handled by the student directors. These men could be found at the start of each quarter directing the bewildered freshmen about campus. In addition to orientation, much of the registration procedure was done by the student directors. At baccalaureate and graduation ceremonies the student directors were seen escorting parents and guests to their seats and guiding them about the campus.

Gold Keys Awarded for Scholastic Superiority

First Row: Keith Knowles, Chet Longenecker, C. Camden McCarl, Gordon Deacon, David Parsels, Ken Elchinger. Second Row: Robert E. Wenz, Boaz E. Eidelberg, James H. Anderson, Jr., John S. Davis, Jr., Ronald J. Richter.

Gold Key awards are presented semiannually to graduating senior recipients during the June and the December commencement activities.

Gold Keys are awarded to those students who, exclusive of their final quarter, have maintained a cumulative grade point average of 3.5 or higher, with no grade lower than C for each of four or more successive quarters, and who have been enrolled in a minimum of fifteen college credit hours each quarter. Names of those students fulfilling the requirements for a second Gold Key are engraved on the Scholars' Plaque, the permanent honor scroll.

First Row: Dudley Edgemon, Ernest Shepard, Henry T. Lisowski, Janet Tapp, Tom Davis, Clyde Shidaker, James Hayward, Dale Schuster. Second Row: Laddie Michael, Richard E. Greiner, Michael Paoli, Walter Johnson, Donald Moore, Robert E. Wenz, Richard A. Brooks. Third Row: David Hauch, James Kiles, Phil Kaufman, Kim Miller.

Honor Students Presented With Silver Keys

Silver Keys were first presented as scholastic awards by Dr. J. Glenn Radcliffe in a ceremony at the close of the fall term in December 1951. Forty-one students were presented with Silver Key awards.

Dr. Radcliffe, as head of the Academic Department, had for some time felt the need of suitable rewards for scholastic achievements. It was Dr. Radcliffe who inaugurated and worked out plans for the Silver Key awards. The design for the key was selected by him, and the entire project was the culmination of his desire to see suitable recognition given to students for efforts and achievements in academics.

Silver Keys were awarded to those students who, exclusive of their final quarter, had maintained a cumulative grade point average of 3.0 or higher with no grade lower than C for each of four or more successive quarters and who were enrolled in a minimum of fifteen college credit hours each quarter.

First Row: Alex Sarton, Henry T. Lisowski, Wayne Gerdeman, Gale Groh, Dale Groh, Thomas Cleveland, Richard E. Greiner, Robert E. Bartlett. Second Row: Dennis A. Archbold, John L. Armstrong, John N. Woelfl, Michael C. Bishop, Jack D. Herrald, Thomas W. Rowe.

Sigma Chi Epsilon Finishes First Year

Sigma Chi Epsilon was founded this year under the leadership of Dr. George F. Hauck, to recognize outstanding academic and leadership qualities of civil engineering students. Prerequisites for admission are a 2.5 average and an interest in extra-curricular activities.

First Row: Michael Paoli, David Parsels, Tom Davis, Richard A. Brooks, Clyde Shidaker, Robert Clendening, Richard E. Greiner. Second Row: Ronald Richter, Boaz Eidelberg, James H. Anderson, Jr., James C. Vander Meer, John S. Davis, Jr., James Kiles.

Tau Sigma Eta Engineering Honorary

Tau Sigma Eta, honorary engineering society, was incorporated in April, 1930, under the laws of the state of Indiana. Election into the society is the highest honor an engineering student can attain.

Requirements for admission into the society are four quarters of college work with a minimum of seventeen hours work during each of the four quarters and a scholastic average of at least 3.1 out of a possible 4.0. A grade of D or lower disqualifies a student for membership. Members of the society are required to maintain an average of 3.0 to be considered active.

Tau Sigma Eta encourages brotherhood and good fellowship, a well-balanced social program, and the maintenance of high scholastic records.

A banquet is held each quarter as a climax to the quarter's activities and aid in encouraging and fostering the ideals of the society.

First Row: James Nord, Ken Elchinger, Jack Webster, Ken Koebel, James Hayward, Dudley Edgemon, Keith Knowles. Second Row: C. Camden McCarl, Leslie Updegrove, Kim Miller, Dave Schnebelen, John Woelfl, Laddie Michael.

Acacia

"None of us Liveth to Himself" . . . .
New Testament

It was a very active and successful year for Acacia Fraternity. The brothers and pledges of the house are very proud of our recent affiliation with Acacia. After a long, toilsome colonization, the Tri-State chapter was fully installed on Jan. 29, 1967. We look to the future with enthusiasm and pride.

Final blackball.

Alpha Sig Recovers From Fire

"Not 'til the sun excludes you do I exclude you."

Walt Whitman

The fire that destroyed the Alpha Sig house in the summer of 1966 set the membership back, but not for long. The brothers and pledges completely remodeled the new "Old Gal" making it into a home that any fraternity would be proud of.

Not all the time, however, was spent painting and hammering; the brotherhood still had plenty of time and energy left to win trophies in sports and hold onto the scholarship plaque for three more consecutive quarters.

Our charming sweetheart, Mrs. Jack Aaron, was awarded the title of Fall Festival Queen.

Sweetheart: Mrs. Jack Aaron

Chi

"Grant us brotherhood, not only for this day but for all our years—not only of words but of acts and deeds."
Stephen Vincent Benet

The brotherhood of Delta Chi, formerly Beta Phi Theta, can trace a rich history back to one of the first fraternity houses on the Tri-State campus. Early this spring the men took another step in the building of a fine organization. Our affiliation with Delta Chi is looked upon as an excellent opportunity to pursue the house's objectives.

Delta Chi was founded at Cornell University in 1890 and has since grown to seventy active chapters and colonies. On April 1, 1967 the membership was initiated at Ball State University.

The men of Delta Chi hope to continue to stress scholarship and an active participation in school activities in the future.

Tops in Leadership

"No man is an island, intire of itself, every man is a piece of the Continent a part of the maine."

John Donne

Kappa Sigma Fraternity was born at TSC on November 22, 1966.

At that time the men of Kappa Sigma Kappa affiliated with Kappa Sigma, a national fraternity composed of 146 chapters.

Trying to uphold the fraternity code, members of Kappa Sigma have been awarded various honors such as "Who's Who in American Colleges and Universities," and the Winter Carnival's Mr. Tri-State. The men have also worked together in achieving the IFC leadership plaque.

Athletically the brotherhood excelled by being co-champs in football and capturing the softball trophy.

The 1966-67 school year has been a challenge well met by the Kappa Sigma brotherhood.

Shift of power.

Sweetheart: Miss Carol Smith

Phi Delts Present Expert on Vietnam

"The highest compact we can make with our fellow is—"Let there be truth between us to forevermore."

Ralph Waldo Emerson

Sigma Phi Delta, an international, social, professional, engineering fraternity, founded at Tri-State College in 1947 had one of its best years in 1967.

Various brothers were selected for positions on such honorary campus societies as Tau Sigma Eta, Sigma Chi Epsilon, Skull and Bones, COA, and the Student Directors. During the spring quarter, the brothers of Sigma Phi Delta were privileged to be able to present the Rev. Daniel Lyons S.J., recognized authority of Vietnam and Southwest Asia.

The Brotherhood is now anxiously waiting to move into our new housing accommodations in the fall of 1968. It is there that Kappa Chapter will host the Tenth Eastern Province Convention of Sigma Phi Delta.

Phi Kap's Win Service Award

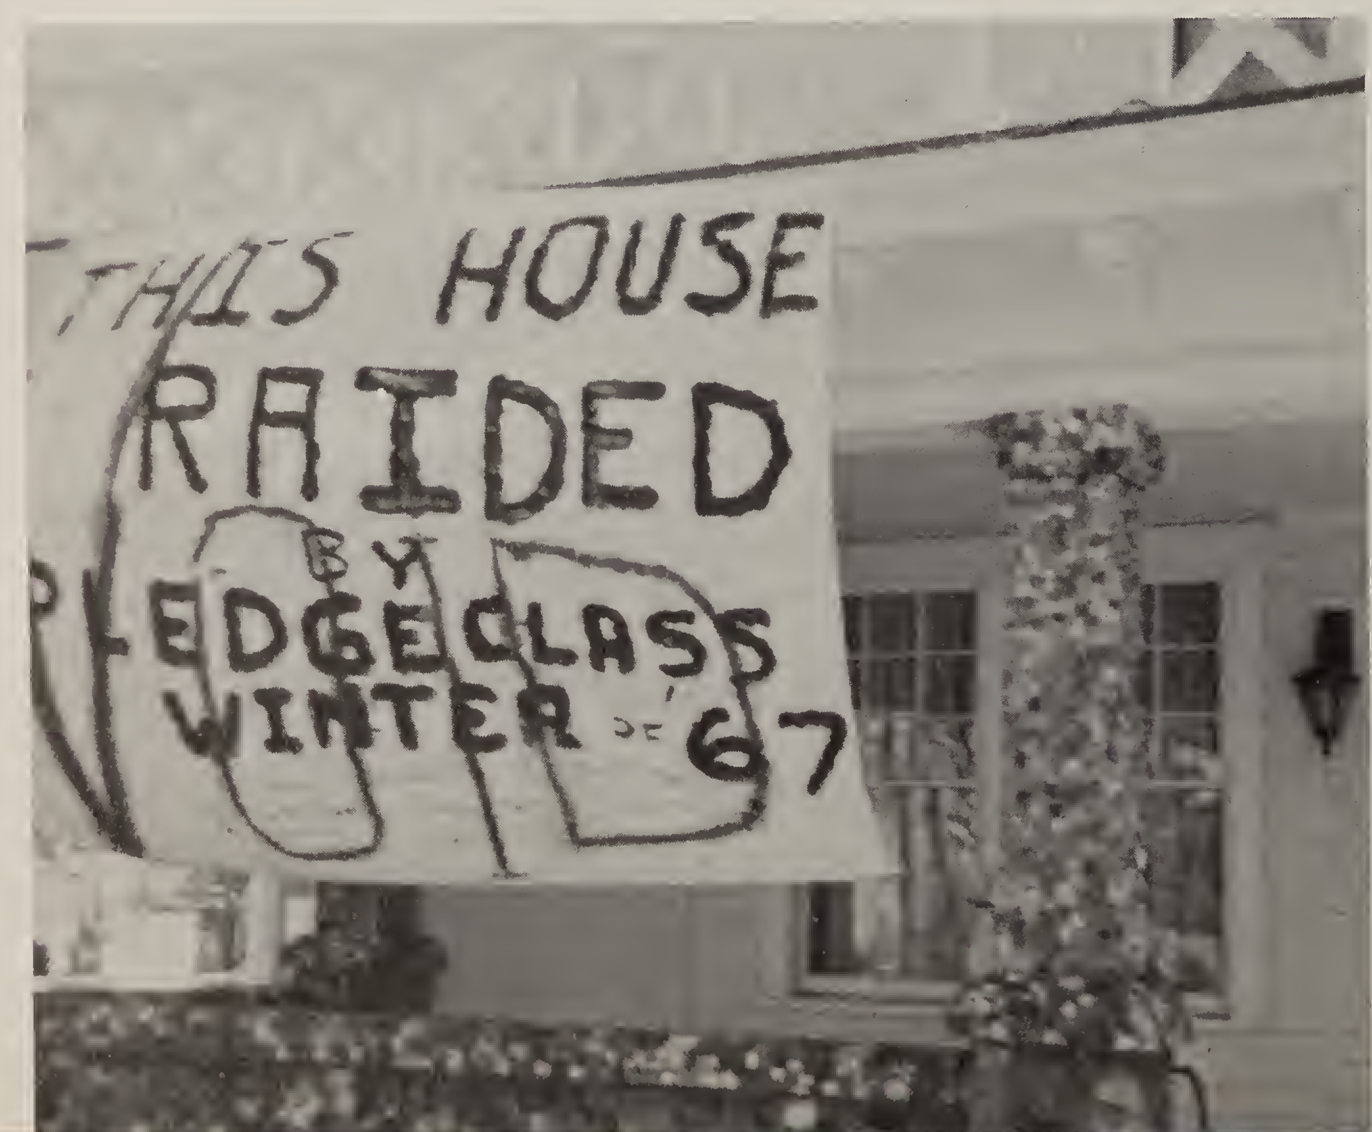
"Behold how good and how pleasant it is for brethren to dwell together in unity."

Old Testament

This year, especially winter and spring quarters, proved to be quite successful for the men of Indiana Alpha Gamma. Our taking first place in the Greek Week Public Service Award was a result of raising funds to buy equipment for the Angola Little League.

The membership, known for their all out effort in sports, took first place in the IFC bowling competition.

Lovely Miss Heather Wilson, our sweetheart, was elected Winter Carnival Queen by the student body. The renovated "Rattskellar" has hosted many a festive event given by the brotherhood in the past year.



Sig Ep's Capture the All-Sports Trophy

"The world is my country, All mankind are my brethren, To do good is my religion, I believe in one God and no more."

Thomas Paine

After carrying the Alpha Gamma Upsilon banner for eighteen years, the brotherhood has made the initial steps to becoming a full chapter of Sigma Phi Epsilon. As Sig Eps we look forward to an exciting future with the support of a strong national.

During the past year the brothers have been active in every phase of campus events. Strong football and basketball teams enabled us to capture the coveted IFC All-Sports Trophy. Fall Festival, Winter Carnival, and Greek Week meant that there would be increased activity at 115 South Darling Street.

We are proud that the growth of our house parallels the growth of the college. We realize that the strength of a fraternity system is based upon the support which that system gives the campus.

Sweetheart: Mrs. Pam Arthur

TEKE Charter Restored on Campus

"Art thou lonely, O my little brother? Share thy little with another! Stretch a hand to one unfriended, And thy loneliness is ended."

William Arthur Dunkerley

TAU KAPPA EPSILON

Pledges visit national headquarters.

Tau Kappa Epsilon became the first national fraternity to appear on the Tri-State campus after the college's accreditation. The membership was installed, with the aid of the Indiana Tech chapter, under the old TKE charter granted to Tri-State.

Highlights of the year's events included the annual Christmas party for the orphan children and remodeling the third floor of the house.

The thirty-five pledges initiated this year will ensure the house's continued growth and success. All the Fraters are looking forward to even bigger and better things for TKE in 1968.

First Row: John Bolte, Gene M. Hirniak, Kingsley Hunger, Michael McIntire, Jeffery Szilage, Edword Bornett, George Metzger. Second Row: William J. Cousins, Dennis A. Archbold, Henry Majcher, Angelo L. Marcone, Phil Kaufman, Cliff Lord.

Inter-Fraternity Council Pilots Open Rush

The Inter-Fraternity Council provides the vehicle by which individual houses are united to enable coordinated and co-operative direction and assistance on school and fraternity functions.

IFC Officers, Left to Right: Scott Erbe, Vice President; Mike Snyder, Secretary; Jim Weiss, Advisor; Ken Rosenberg, Treosurer; Jim Howard, President.

Organizations

President's Breakfast Keynotes Discussion

In Campus Problems

First Row: Joe Charney, Ted Wood, Ernest Shepard, Professor Hilton, Gerald Brown, Sam Priddey, Douglas Marshall, Jim Dinsmore, Gregory Donnellon, John Grieder. Second Row: Richard Rudolf, Gene Bowdreau, George Batty, Tom Cochron, Eddie Mulroy, Harold Harnish, Don Jenner.

Delta Nu Alpha Initiated on Campus

The merger of the Motor Transport Society and the National Defense Transportation Association into the Delta Nu Alpha professional transportation fraternity is the highlight of the year. The fraternity offers great resources of educational material and experience. This is just another step toward professionalism in the transportation department.

Left to right: Carl Hull, National Vice-President, Allen Hart, Past National President, Frank Lange, National Regional Vice-President, George Batty, Chapter President, Advisors; Mr. Hilton, Dr. McElhiney.

Sigma Epsilon Society Develops Business Acumen

First Row: Professor Goodale, Eugene Bare, Kent Clapp, Ken Allen, Rad Mocherman, David Klahr, Russell Kahn, Pete Francies, Jerry Malcolm, Dave Peiffer, Robert Hemp. Second Row: Tom Cochran, Kingsley Hunger, Ron Girard, Kester King, J. Littler, Dave Solida, George Batty, Dan Haffman, Ralph Stitt.

Through hard work and determination on the part of the Sigma Epsilon, the society had another great year. Its membership was at an all-time high totaling better than 25% of the business school. Due to the fine cooperation of the members, the used bookstore realized greater profits and better results than any previous year.

One of the fine accomplishments of the society was the publishing of a student calendar with various activities of the students and meetings of Sigma Epsilon. Of course, all the Sig Eps looked forward to their quarterly banquets and the annual field trip. Pins, shingles, and gold keys were awarded to students for their outstanding service and were something to be proud of.

First Row: Dale Schuster, Kenneth Yeazel, Carl Fox, Neil Sigler, Bruce Kemmerer, Alton Werner, James Nord. Second Row: Steven M. Hamman, Marlin W. Teske, James L. Terry, Richard C. Fox, David Schnebelen, Robert Sebeika, Dale Nelson, Charles Lantz.

American Institute of Aeronautics and Astronautics

Car stereo tape drawing.

The American Institute of Aeronautics and Astronautics at Tri-State College is a student branch of the national organization which was founded on February 1, 1963 by a merger of the American Rocket Society and the Institute of Aerospace Sciences. It is the principal United States Aerospace Technical Society.

The local branch was very active this past year. The highlight of the fall quarter was a talk by the national soaring champion on his winning glider which he assembled for us in the Aero. Lab. Other activities through the fall and winter quarters included a field trip to North American Aviation in Columbus, Ohio and two speakers from Cessna Aircraft. The Aero lounge built by the members, the field trip to the section conference, and the yearly banquet at which Captain Cermack, the pilot of the Goodyear Mayflower Blimp, spoke, were the highlights rounding out the school year.

Thunderbirds Expand Fleet

The Flying Thunderbirds traced their origin back to the year 1939 when a soaring club was founded on the Tri-State campus. In 1950, the club was reactivated and incorporated under Indiana state law in 1953.

The club had the best equipped training aircraft in the northern part of Indiana.. The addition of a second radio, a $1,200 Mark 12, to their Cessna 150 increased their position during the 1966-67 school year. The expanded T-birds also satisfied their desire to own a four-place aircraft by purchasing a new zero-time Cessna Skyhawk equipped with a full panel and 360 channel radio.

The old Cessna 150 has been replaced with à new model with full radios.

First Row: Jack Nickels, Robert Schilling, Dr. Kenneth H. Slagle, Michael Paoli, Patrick Lynch, Dave Parsels. Second Row: James Kiles, Surendra K. Sinha, Joseph Dart, Don Hale, Gary Tedder, Robert Leach.

Chemical Society Honors Dr. Horrall

1966-67 saw a very active Chemical Society. Each bi-weekly meeting was enlivened by informative and interesting films or speakers from industry and academic circles. A rise was also noted in Student Affiliate members, thus making the Tri-State chapter one of the best represented in this category.

The highlights of the year were the Winter Banquet at which Dr. Horrall was given an award in recognition of his many years of service to the Chem. Department and the Chem. Society. The field trip to Glidden Industries and Diamond Akali Corporation in Cleveland was the bright spot of the Spring Quarter.

Institute of Electronic and Electrical Engineers

First Row: Ronald Evans, Jerry Kline, John Heffner, Robert Erwin, Roberto Soley, Alan G. Thompson, Russell Tabolic, Richard T. Boswell II. Second Row: Wesley M. Bundy, August M. Riccono, Jerry Onosaki, Cleo G. Wells, Gerd H. Wuersig, Kird J. Kennedy, Edward J. Madera, Rex Simmons.

The special electronics laboratory for IEEE members, located in the basement of Platt Hall, was extensively used for the repair of televisions, radios and other equipment. Future plans called for the laboratory to be placed in the new student union.

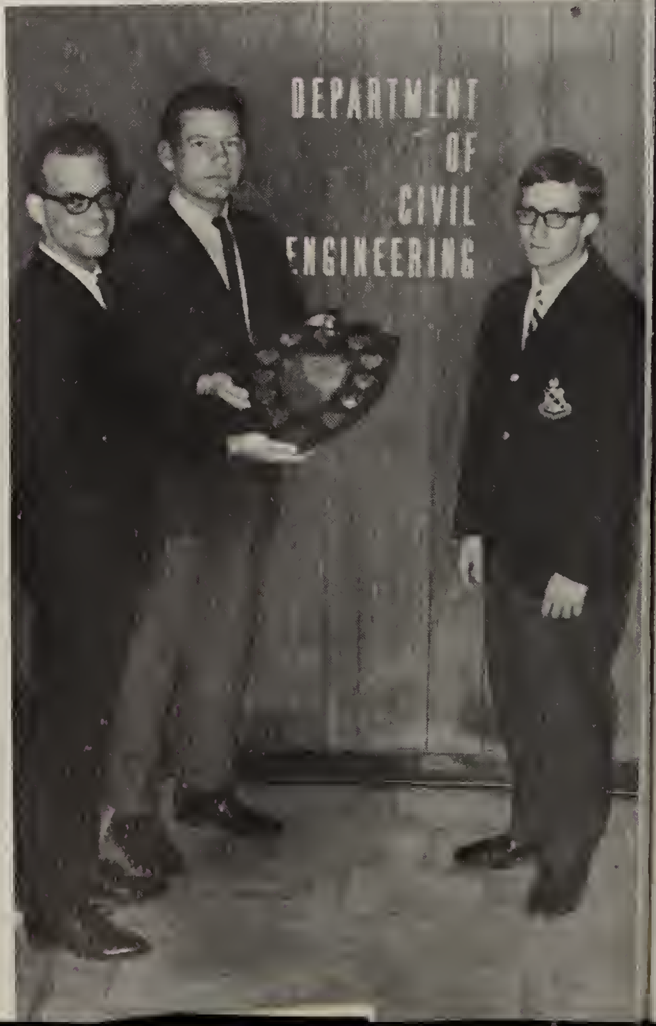
Many of the nation's largest electronics firms, such as Delco Radio, IBM, Cosley Broadcasting, and I.T. & T., were represented at the bi-weekly meetings.

Rowley Elected Civil Teacher of the Year

First Row: Arthur J. Bush, John J. Hesselschwardt, Drew Bitner, Charles Corbitt, Wayne Gerdeman, Robert E. Bartlett. Second Row: Thomas Rowe, Jerry Cuccinello, Noor Mohammed.

The A.R.B.A., a national organization, is organized to present to the Civil Engineering student the principles of the road building profession. Road building is the major employer of Civil Engineers and this led to the formation of a society devoted strictly to their needs.

The meetings are informal in nature, allowing the students to express their opinions and ask questions pertaining to the profession. Several speakers from the industry are present at the periodic meetings and general discussion between the students and the speaker usually followed the meetings. Movies and field trips are used to acquaint the students with the principles and practices associated with the road building industry.



Richard Greiner and Jerry Cuccinello award Professor Rowley.

First Row: Robert Raczyk, Leonard Jones, William McGarvey, Richard E. Greiner, Charles S. Davis, George K. White, Clifford Kloc, Alex Sorten. Second Row: Ken Elshinger, Dave Hunsinger, R. Russell Armstrong, John N. Woelfl, David S. Lewis, Thomas Garcia, Darwin Pyc, John Armstrong.

ASCE Receives Certificate of Commendation

The purpose of the student chapter of the A.S.C.E. is to supplement classroom instruction with on-the-job techniques in civil engineering practice. Meetings are held throughout each term to acquaint the future Civil Engineers with all aspects of the profession. Speakers from industry are invited to participate in the sessions.

The Tri-State chapter was honored as one of the most active chapters in the state. As well as cooperating with the A.R.B.A. on Civil Engineering Day and the selection of Civil Teacher of the year, the society worked on a mass fallout shelter design.

First Row: Harry Matter, Richard Neil, Henry T. Lisowski, William T. Eves, John J. Hesselschwardt, Michael A. Orekoya, Robert E. Bartlett, Bennett Chambers, Arthur J. Bush. Second Row: Gale Groh, Dale Groh, Dennis A. Archbold, Charles Corbitt, Drew Bitner, Thomas Cleveland, Wayne Gerdeman, John Madden. Third Row: Thomas Rowe, Jerry Cuccinello, Dapo Babalola, Noor Mohammed.

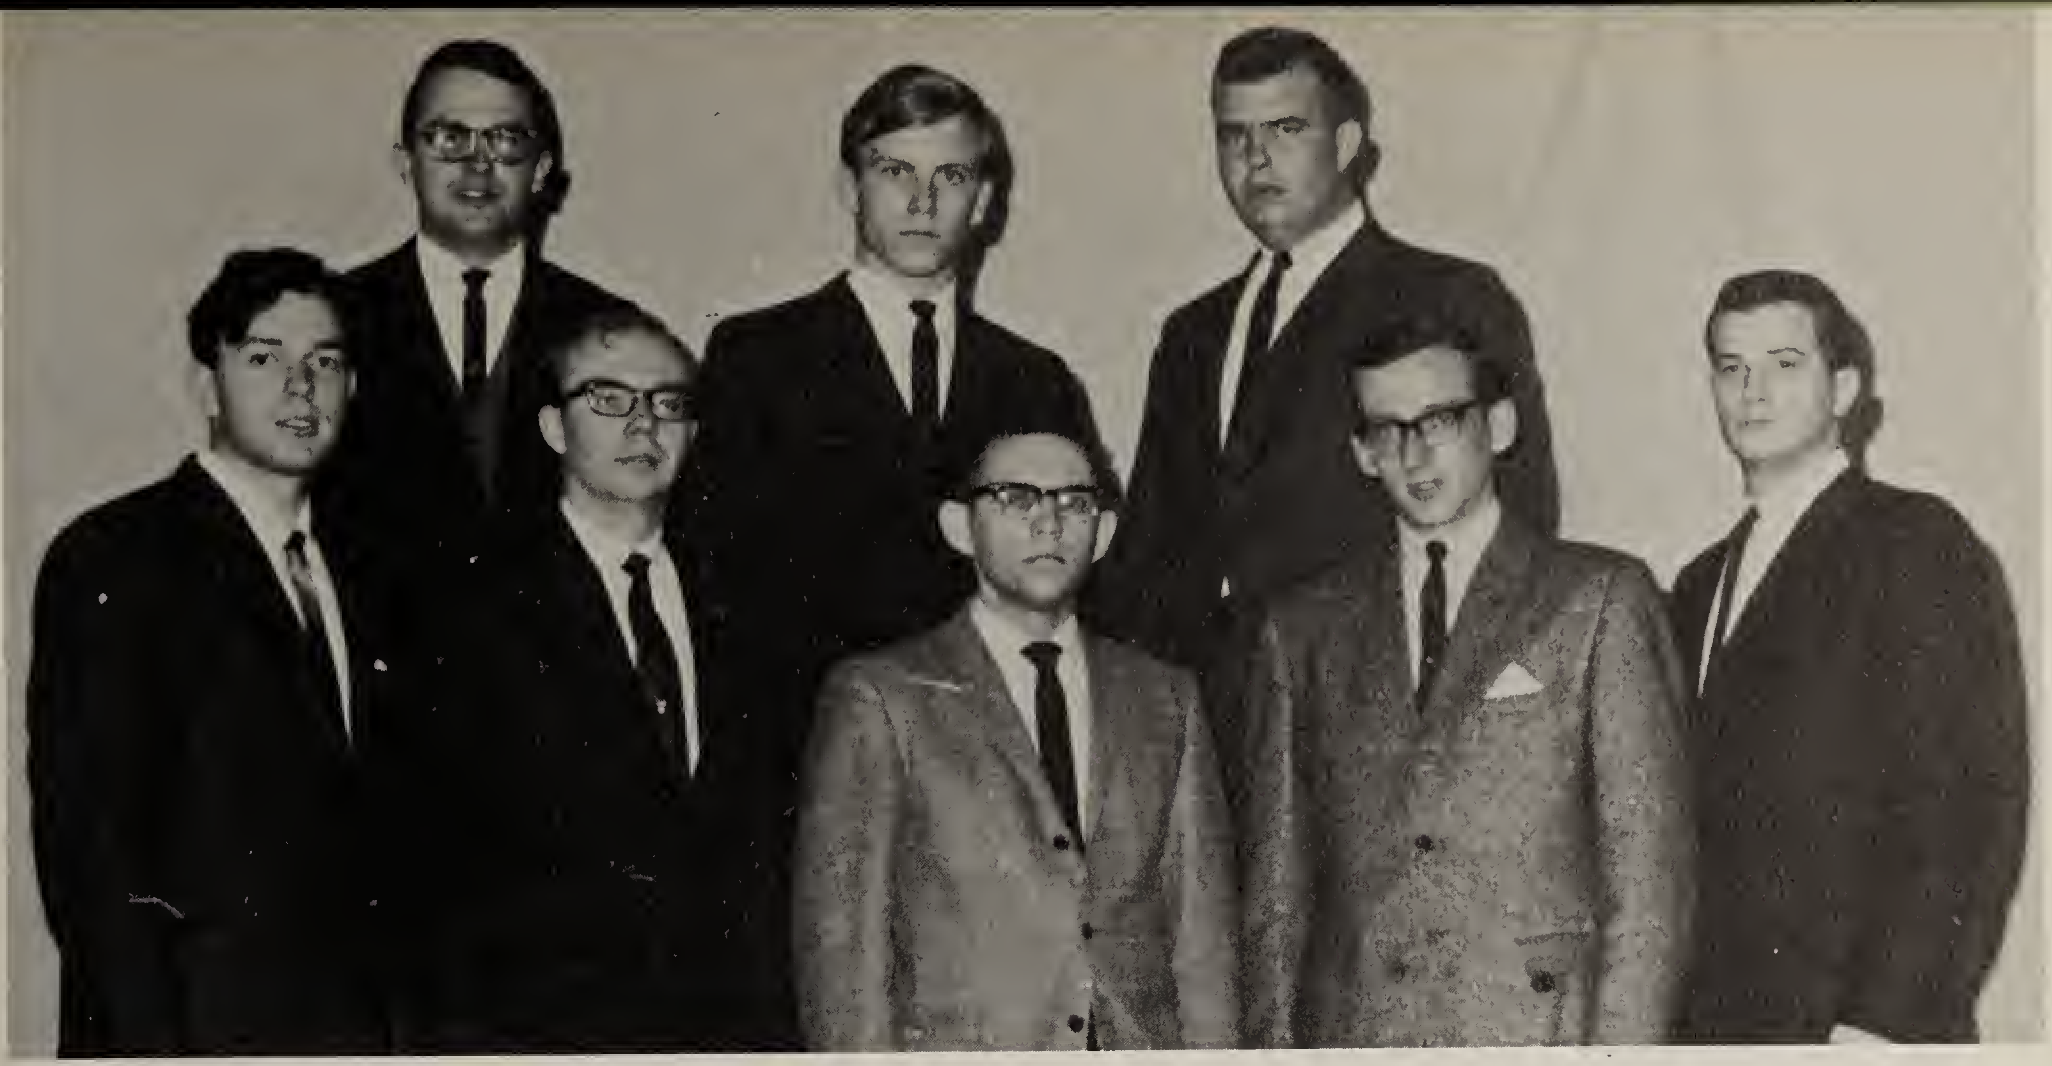
Mechanical Society

First Row: Robert Kennedy, Clint Richards, Wildon Medlin, Robert Thompson, Rex Ludwick, Gerald Godi. Second Row: George Gish, Dave Grubb, Rocco Camanelli, Max Klaus, Tom Harrington, Joseph Anibaldi.

The underlying principle of the Mechanical Society is to promote an active interest of the mechanical engineer in his chosen profession. Speakers, films, and field trips are used in an attempt to acquaint the student with the procedures and progress in engineering.

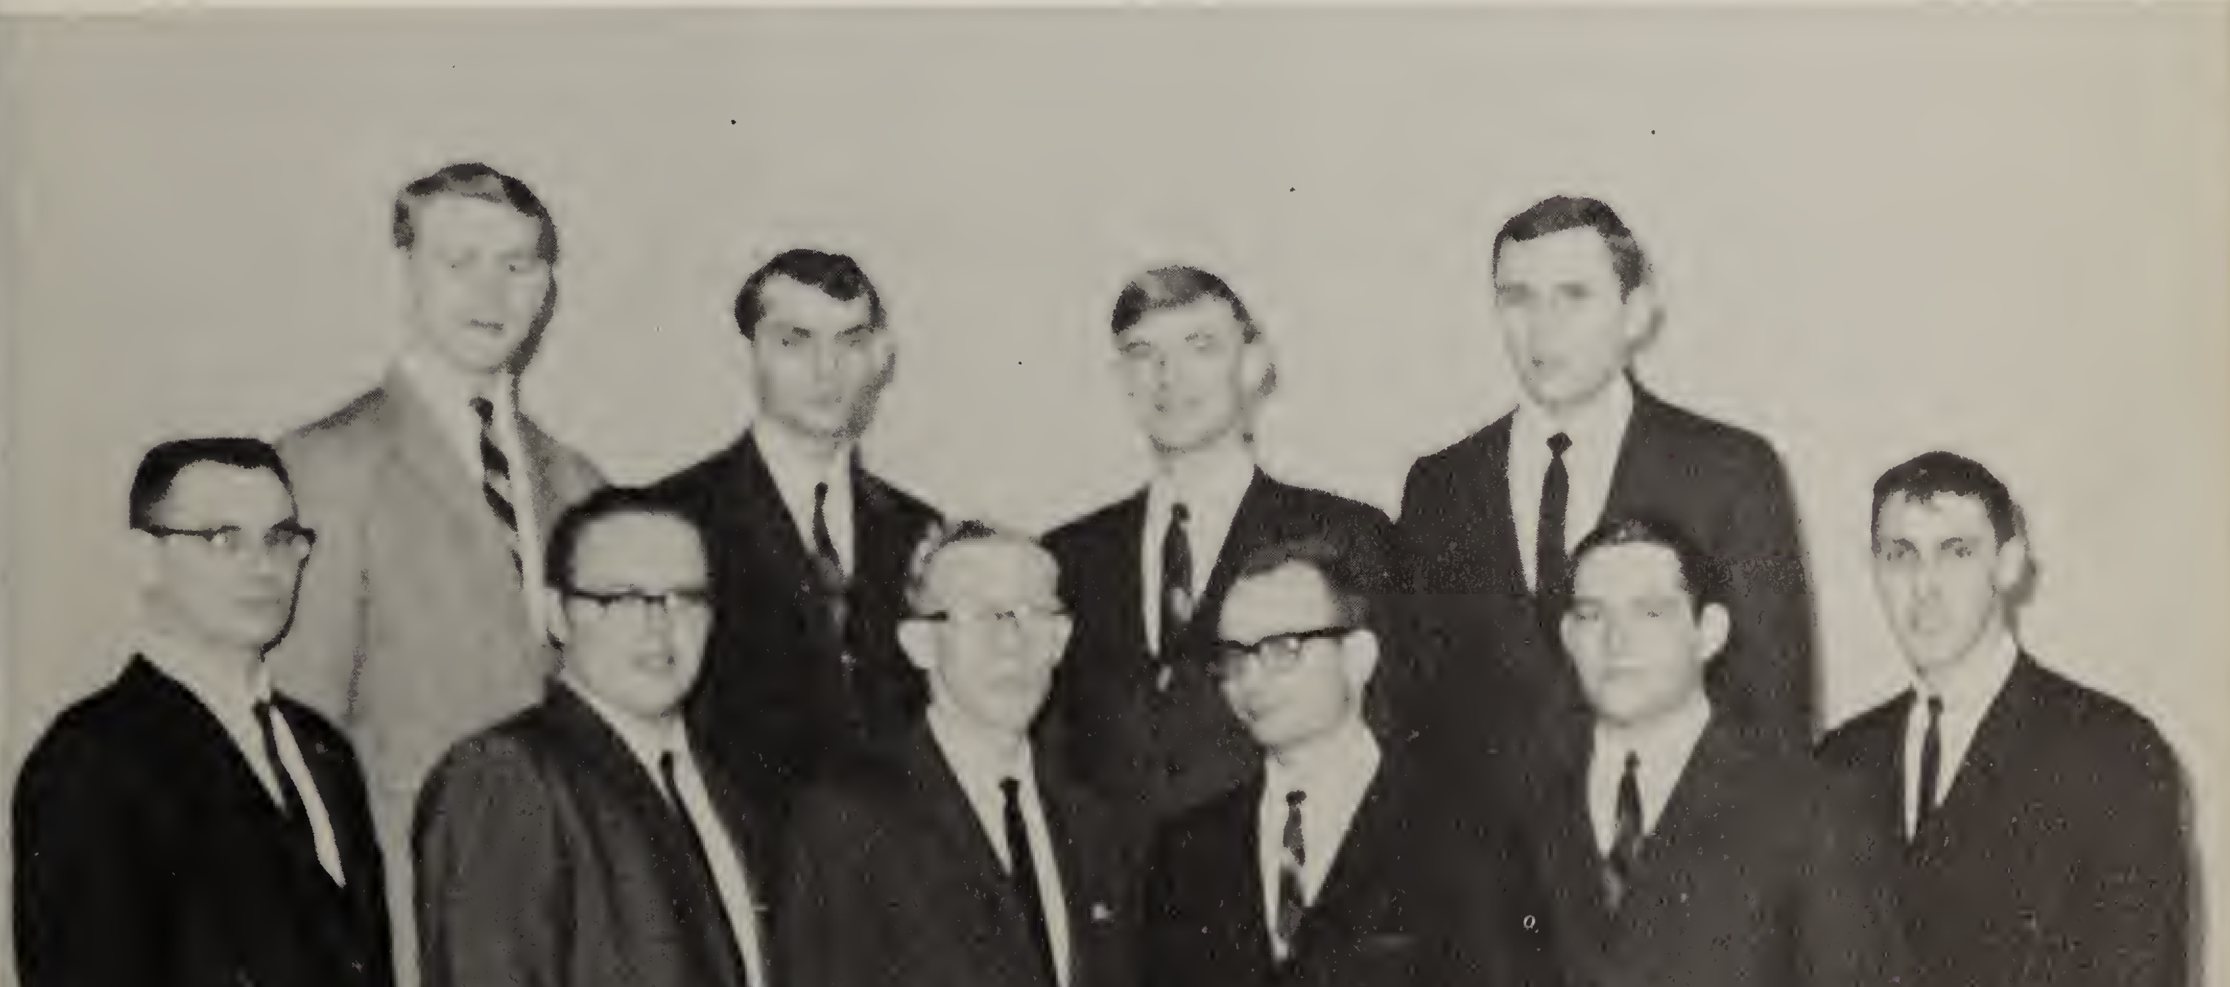
The society attempted to act as a liaison between the inquiring student and the industry. It enabled him to venture outside the realm of the classroom and into the world of the professional engineer. The membership roles increased over the years and the past demonstrating the student's avid interest in the organization.

First Row: Dave Small, Laddie Michael, Tom Bell, Jerry Roth, Kim Miller, Jeff Burger, James Good, Trent Bongiolatti. Second Row: Dave Noble, Larry Burkhart, Ron Flynn, Gary Yarger, Thayer Bonecutter.



First Row: Robert Kennedy, Clint Richards, Tom Bell, Jerry Roth, Tom Mooney, David Small. Second Row: James Good, Joe Stout, Ron Flynn, Dave Hauck.

Society of Automotive Engineers



First Row: Bob Forest, Robert Thompson, Walter Holcomb, James Hephner, Rex Ludwick. Second Row: James McKinney, Daniel DeBolt, Dave Grubb.

American Society of Tool and Manufacturing Engineers

First Row: Robert Kennedy, Clint Richards, Warren Cunningham, Wildon Medlin, Tom Josche, George Gish, Clark Moore, Rex Ludwick, Gerald Godi. Second Row: Thayer Bonecutter, Robert Thompson, Dean Fox, Max Klaus, Clyde Shidaker, Dave Grubb, Joe Anibaldi.

Tri-State chapter of the American Institute of Tool and Manufacturing Engineers was installed this year. The first year showed added cooperation between all the mechanical engineering societies, including a first place snow sculpture during the Winter Carnival. Speakers and combined field trips were actively supported.

The chapter is a student affiliate of the national institute and therefore provides all rights and privileges of a graduate member at reduced cost. The purpose of the society is to promote a professional approach to the study and practice of mechanical engineering.

First Row: Dale Linnemeir, John J. Stoops, Lewis Zakrzewski, Phil Thomas, David Rath, Thomas Shomsky, Ronald Wolke, Barry O'Brien, Robert Boyd. Second Row: Jerry Dimond, Max Spiker, Robert Brinson, Ronald Clark, Kathleen Juerling, Richard L. Jones, Robert L. Huff, Kevin T. Walls, Gary Thompson, Advisor.

American Institute of Drafting and Design

The A.I.D.D. was organized to promote a better understanding of the drafting profession and to allow the student to explore, question, and ponder the many facets of drafting.

Regular meetings are held throughout the school year. Several speakers from industry are present at these meetings and the students are permitted to question and discuss the profession with the speaker. New techniques are introduced to the students through the society, and this allows him to broaden his knowledge and to keep up with the latest trends and developments of industry.

To increase the knowledge of the drafting and design student, many field trips are organized to combine actual industrial experience with theoretical work.

Tri-State Sports Car Club

One of the fun clubs on campus, the sports car club offers the refinement of driving skills and techniques through scheduled gymkanas and rallies throughout the year. Safety, skill and control are stressed through the various competitions.

Left to Right: Tim Beyer, Frank Rupp, Mike Bates, Bill McNabb, Charles Lantz, James Cook, Ken Schmidt, Linda Ruoff, Dave Grubb.

First Row: Richard T. Boswell II, Douglas A. McCray, Tony LaPinto, Jack Kessler, Clark Miller, Russ Tobolic, Prof. Lloyd Hanson. Second Row: Allan Chester, Greg Churtrand, Brian Nemec, Gul Morrjani, Jim VanderMer, Lance S. Micklus.

W9BF, Amateur Radio Club

To provide room for the John G. Best Hall of Science, the radio shack was torn down. The station was transferred to the basement of the Drafting and Design Building and has since added new equipment and improved operations.

Circle K

Circle K, a service club for college students, is sponsored by Kiwanis International.

Dedicated to participation in projects to serve the campus community, Circle K at Tri-State College was singled out for state and national attention this past year.

John Counseller was elected governor of the Indiana District Circle K. Counseller was runner-up for the state achievement award presented by Circle K to the outstanding individual.

The Tri-State Circle K Club was recognized during the 1967 state meeting as third in Indiana in point of service, activities, and program.

John D. Counseller, Lt. Gov. Division III, Indiana District, International Circle K.

CIRCLE K CLUB
INTERNATIONAL
K

First Row: James L. Kiser, Scott Campney, Brian Smith, Barry O'Brien, Doug Thompson. Second Row: James Booher, Richard Allen, Skip Hoskins.

Booster Club

The Booster Club at Tri-State College has been in existence for many years and had as its purpose, to foster school spirit and to gain a greater interest in college events and activities, both social and athletic. The club worked with the administration, social directors, athletic heads, and local citizens in an attempt to reach these goals.

Students and their wives, faculty members, and other interested citizens with a desire to improve and coordinate college activities were eligible for membership. Most of the campus organizations had a representative in the club.

The Booster Club performed a great service for the college athletic teams and to the school itself. Members worked hard during each term in preparation for athletic events and social affairs. Selling advertisements to the local merchants made it possible to have free programs available for the basketball games.

Seated: Janet Tapp, Pastor Ben Antle, Susan McKarns. Standing: Larry Sunday, Thomas Miller, Dennis Roat, Pete Dole, Gary Johnson, Jerry Mohr, Guy Wiswell.

Methodist Student Movement

The Methodist Student Movement is an organization of students interested in furthering Christian character. Anyone who is interested in joining the M.S.M. is eligible for membership.

The M.S.M. is sponsored by the Angola Methodist Church under the leadership of Reverend Benjamin Antle. It is a local unit of the state M.S.M. The State M.S.M. sponsors two conferences each year which the local unit attends.

During 1966 the M.S.M. moved to a temporary lounge in the church. The members expect a new lounge in the new church addition to be completed and in use by the Spring of 1967.

The M.S.M. meet at 6:45 every Sunday night for devotions, a program and refreshments. Many outstanding speakers are obtained for these programs. The members also travel to other churches in the area to conduct worship services.

Halloween Party.

Tri-State Student Wives

The Tri-State Student Wives' Club was formed to promote friendship among the wives of students and to offer educational and recreational opportunities.

The Club met on the 2nd and 4th Thursday each month and every quarter. A variety of programs were offered which included TSC Glee Club, campus speakers, hostess tips, mental health and special family events.

Family Picnic at Pokagon State Park.

First Raw: Baris Bratuljevich, Brazil; Mohammad Nabi Olumee, Afghanistan; Libana Guerrera, Calumbia; Victar M. Fajarda, Calumbia; Naar Mahammed, Trinidad; Jagdish Shah, India; Serge Faingnaert, Belgium; N. M. Adenwala, India. Secand Raw: Baaz Eidelberg, Israel; Arman Boansopon, Thailand; C. Christen, Peru; Sohan S. Dhamrait, Fiji Island; Gul Maarjani, Canada; Charles Lim, Burma.

International Student Association

The International Students Association was organized during the school year of 1949-50 to aid in the plan of world peace and to give students an opportunity to have a mutual understanding of their foreign neighbors. This association has presented discussion programs for civil organizations in Angola and nearby communities. Our ideal can be stated in these words, "The Essence of Unity is Brotherhood." No barriers of language or customs have retarded our progress, because we all cherish the words of Socrates, "I am a citizen not of Athens, nor of Greece, but of the world."

The I.S.A. is "education" in that it provides the opportunity to learn more about the people of other lands, promote better understanding, and strengthen the friendly ties that exist among citizens of the world.

In the seventeen-year history of the I.S.A. many members have become leaders in their own field, with a broader understanding of the people and cultures of other countries.

Tri-State College can be proud of extending a friendly hand to students from near and far, a warm hand that is helping to bring freedom to many people and helping those people shape their own destinies.

Schussmeisters

Since the demise of Tamarack Mountain, the Schussmeisters have had to travel to the Irish Hills to ski. This has partially curtailed progress but an active program of movies, instruction and participation has been supported.

Several week-end ski trips to Michigan ski resorts were organized by the club and were greatly accepted.

Kneeling: Drew Bitner, Dave Kirschenbauer. Standing: Vic Nicademus, Bob Thompson, Trent Bongialatti, Alton Werner.

Editor-in-Chief, Don Jenner.

1966 Modulus Earns

The 1966 Modulus achieved a First Class rating in the national yearbook contest. Last year's book missed the highest; All American rating of 7100 points by 95 points. This is a real credit to Tri-State and last year's advisor and staff.

Above: Chief Photographer, Dennis Haldiman

Left: Assistant Editor, Pete Francies

First Class Rating

The 1967 Modulus is the result of the combined efforts of those pictured as well as the fine work of Susan McKarns, Gary Bertram, and Pat Lynch. We have departed from the two, three and four column layout used previously and concentrated on a three column style.

Dr. Willig Addresses Newman Club

The Newman Aposalate counted many activities during the year including a welcoming of a new Chaplain, Father Howard Hansen, numerous parties in the Newman House, participation in the Fall Festival, and joint Communion breakfasts with the Brothers of Phi Kappa Theta.

Open to all Catholic students, the organization boasts a cooperative residence, one of the few such Newman Houses in the country. The Newman Apostalate is dedicated to providing the food for spiritual life among Catholic students on Campus through fellowship.

Cameron Hall Excelled in Scholarship

The Cameron-Platt dance was one of the most successful events of the year. Over 150 attended the dance which was a joint venture on behalf of Cameron and Platt halls.

During the Spring quarter, Cameron Hall participated in the intramural Softball League and a good season was the reward. At the end of the quarter, Cameron Hall held a picnic at Pokagon State Park.

When Mrs. Briggs was taken ill, the dorm was run very successfully by the capable resident assistants.

First Row: John Campbell, Bert Prince, Ronald Hansing, Bill Roberson, Robert Schmiesing, Nick Roskos, Dan Swain, Tom Taylor, Bill Holdeman, Kenneth Pish, Alan Bloue, Dan Lager, Steven Hout, Tim Spitler, John Wahshall, Robert Tetrick, Fred Williams, Allen Hardy, Bob Lane, Victor Fajardo. 27	Defiance (Ohio)	29
41	Concordia**	25
41	Indiana Tech**	67

**Mid-Central Conference Meet

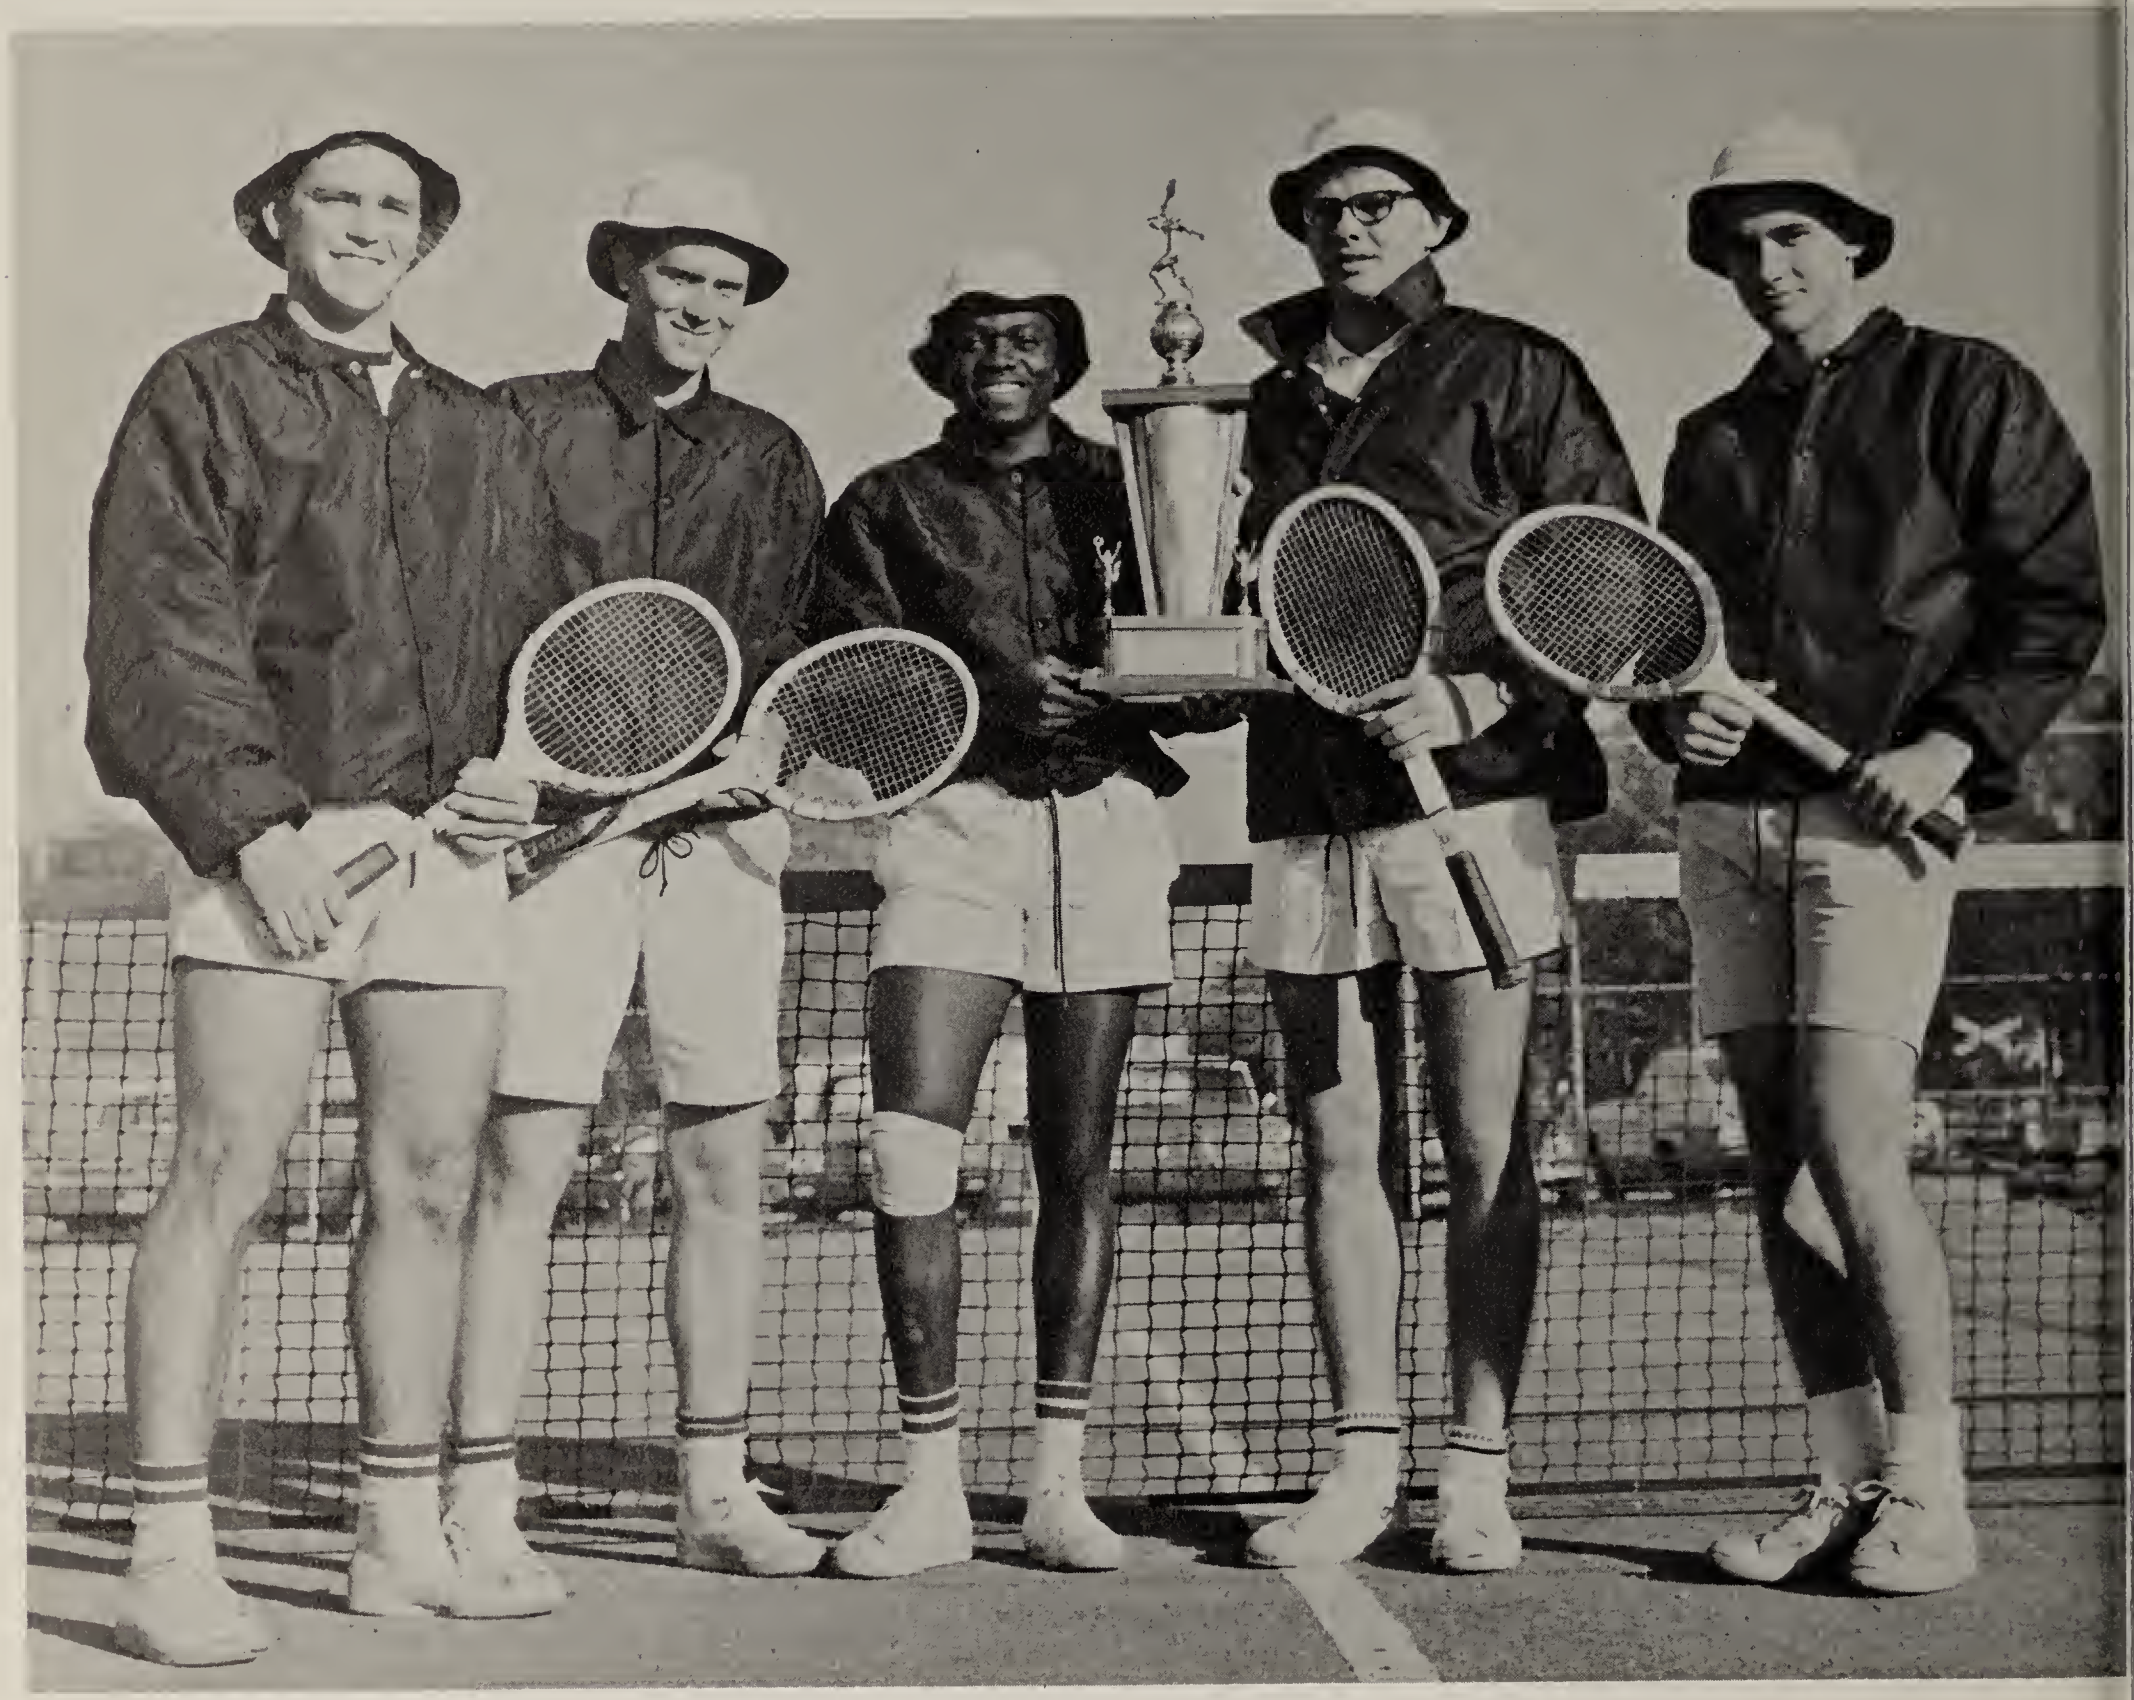
Coach Mark Peterman took six runners to Fort Wayne for the Mid-Central Conference cross country meet. The team traveled without injured Joel Berger, who placed second in the Conference meet in 1965, and fourth against Defiance and Indiana Tech a week earlier.

The team finished second in the Conference meet, with Pat Cline and Jon Grill leading the way. The winning time by a Concordia senior was 22:47. Cline finished the course second with a 23:11 clocking. Grill was close behind in third place with a 23:16 for the four mile course.

Dave Petrie, who finished seventh against Tech and Defiance finished in sixth place with a 24:41 timing. Dave Fogg finished fourteenth and Bill Price running his first meet finished sixteenth to round out the scoring for Tri State.

Gene Merrick also ran the course with a bad ankle and finished eighteen. Concordia won the meet for the third straight year with 25 points and Tri-State was close behind with 41 points and Indiana Tech finished third with 67 points. The other three conference schools forfeited.

Net Men Mid-Central Co-Champions



Dave Hoops, Harry Sinden, Dapo Babalola, Dennis Black, Paul Weise.

The tennis team split home games with Concordia and was forced to share the conference championship. The Trojans defeated Concordia here 5-2 early in the season, but lost to the Senior College at Fort Wayne 4-2. Both teams finished with 9-1 records.

Paul Weise, Tri-State's number one man lost his only match of the year against Concordia. Denny Black, number two man, and Dapo Babalola number three man finished the season undefeated. The Doubles team of Weise and Black also was undefeated for the season.

Harry Sinden, the number four man, finished 8-2 for the year and linked up with Babalola for a 9-1 record in doubles. Dave Hoops, number five man, had a slow start but won his last three matches and finished 4-6 for the year.

"Doc" Mummert served his last year as Tennis Coach and the Conference Championship was fine tribute to his service.

Soccer Team Posts First Winning Season

The Soccer team under coach Herb Stoerr posted the first winning season here at TSC. The season ended on a sour note as the team fell to Indiana Tech 6-4. Tom Skaper collected three goals against Tech for the season's single game high.

Skaper was leading scorer for the season with seven goals. Ahmet Borecki sent in six goals, Chuck Borneman finished with three and Butch Gardner drove home two goals. Senior Mike Orekaya was the outstanding defensive player along with Jody Engle. Mike also collected a goal against St. Francis in the final seconds to add another Trojan victory to the list.

Don Bentz played goalie the last three games of the season and stopped twenty-three Tech drives short of the goal. The outstanding game of the year was against the Fort Wayne Soccer Club. The Trojans held the team scoreless the first half, but was overcome in the second half scoring splurge 7-2. The Fort Wayne Club went on to be undefeated and won the Tri-State Area Soccer Crown.

Congratulations to Coach Herbert Stoerr and his fighting Trojans. Next year soccer will become a Varsity Mid-Central Conference sport and the Team will play each conference school home and away.

Soccer Record

Trojans Mid-Central Conference Champs

The Varsity 1966-67 basketball season was one of the most successful ever completed by a Tri-State team. From the slim one point victory over Spring Arbor 72-71, to the 104-75 romp over the Huntington Foresters: the Trojan crew ran up a total of 19 victories in 26 games. Nine of these wins were over conference foes and two over Hoosier Conference foes. The losses were all on the road with the exception of the 100-90 overtime set-back by Indiana Tech. The white finished with a 9-1 home record and 10-6 on the road, with three losses coming in tourneys. The team finished seventh at the Grace Thanksgiving tourney and second in the Grand Rapids Holiday tourney. They defeated Wheaton and Calvin in the Grand Rapids tourney and lost to number five ranked Central Michigan in the final game. Two losses came at the hands of Indiana Central and Defiance. The Trojans downed both these teams at home and lost a second game to Indiana Central in the N.A.I.A. District 21 Playoffs.

In their first year in the N.A.I.A., the Trojans were invited to participate in the District 21 playoffs. Despite a bad shooting night the team managed to come within five points of Indiana Central who won 75-70. The Grayhounds defeated Hanover the following night and thus won the District 21 title.

Terry West was the Trojan mainstay and won the most valuable award for the second year. Joel Berger won the free throw award and Jim Smoots the sportsmanship award. Smoots and Lou Shaffer, the only seniors, led the team throughout the season and were backed up by Tony Rogan, Ed Schmaltz, and freshmen Jon Grill and Bill Price.

Junior Varsity Compiles 12-2 Record

It was a very successful year for the junior varsity as they won 12 of 14 games. Both losses came at the hands of the Defiance Yellow Jackets. The season started with an 82-62 victory over Spring Arbor and ended with a 99-53 victory over Huntington. In between were six Mid-Central Conference victories and two twenty point victories over strong independent teams. The Phi Kappa Theta Team tried to keep with the JV's but fell to the wayside 121-35. The team ran up 1260 points for a 90.0 average combated to 914 points and a 65.3 defensive average.

Dave Ballinger and Harry Kohlheim ran at the guard spots and were relieved by Manny Ortiz, Mark Young and Dave Petrie. Lou Koning, Dennis Craig and Bob Livingston played the forward spots and were spelled by Jim Bauerly and Dave Petrie. 6'6" Wes Harper played outstanding ball at the pivot spot and collected 20 rebounds a game. Ballinger, Koning, Livingston and Harper held the scoring honors, while Manny Ortiz held the assist award and Dennis Craig the free-throw award. Dave Petrie collected 77 points in a relief role and Mark Young set a school record collecting nine points in thirty-seven seconds against the Churubusco Merchants.

"Doc" Mummert coached the JV's in the most successful JV season ever recorded at TSC.

Golfers Win N.A.I.A. and M.C.C. Tournies

The 1967 Trojan Golf Squad has been called the finest in the history of the College. Such statements are always hazardous at best; however, a look at the season these men had provides a strong basis in their favor for such distinction:

- —complete dominance of the Mid-Central Conference in a perfect season match record (10-0) and tournament championship;
- —District 21 N.A.I.A. Championship and a berth in that national tournament where John Nigro placed among the top ten individuals.

Coach Ray Porter will welcome this complete team back and more record-breaking performances may be in next year's Modulus.

Sluggers Hit by Attrition

The baseball team had a slow start this year, but finished strong for a second place conference finish. The pitching was poor until May when all three starters found their stuff. Dale Chard won his last two games defeating Indiana Tech and St. Francis. He struck out 13 men in his final game at St. Francis and finished with a 3.64 earn run average for the season. The Trojans were the only team to defeat Huntington, who won the conference with a 9-1 record, and they did it by a nine to one score.

Norm Newell had arm trouble, but beat Concordia here 4-2 and scored the winning run. Dale Waltz, the only veteran pitcher worked well all season. He recorded 34 strike outs for the season and ended with a 1-1 record. He pitched in eight games and had a 4.11 earn run average.

Bob Burnitz and Jim Taylor, both lettermen, led the hitting attack. Burnitz won the batting award collecting ten hits in twenty-eight plate appearances. Taylor was named the most valuable player and drove in eight RBI's. Denny DeGroff had an outstanding season at second base, while Jody Engle played well at short stop. Freshmen Rick Linard, Dave Ballinger, Lanny Frisco, Manny Ortiz, Geoff Chichester, John Neese, Dale and Steve Vanderbur, and Dick Bible backed up the veterans and will return to play next spring.

A big "thanks" to "Doc" Mummert, who acted as coach this season.

Cheerleaders Spark Spirit

Present at all basketball games were the irrepressible cheerleaders, who, under the direction of Susan McKarns, developed new cheers and routines. The enthusiasm and participation developed by these girls is a credit to their prowess. The basketball team compiled an outstanding record, due partially to the spirit developed by the cheerleaders and pep band.

Conclusion

The 1967 MODULUS is the culmination of a hard year's work by many people, many of whom receive no credit for their efforts. I would personally like to thank Blaine Shoup and Mr. Nyikos for their help and to this year's staff, who were handicapped by a late start.

May you enjoy this book as much as we have, in publishing it for you.

Sincerely yours,

Donald A. Jenner
